

## GLASSWARE BRINGS SPARKLE TO SERVICE

Contributes Bright Tone to Table for Any Meal of the Day.

To bring sparkle to table service add glass. And for any meal. Breakfast can be made practically cheerful if the table gleams naturally with glassware, and nowadays one can see everything except coffee cups in this happy service.

Cereal bowls come in glass of different shapes, plain or ornate and the colored glass that is suitable for salad service may also appear at breakfast for other uses. Then there are the glass bowls and vases suitable for a few flowers—and they come in all shades and tints, including the sober but smart black pedestals for etched glassware.

Dinner services that are accompanied by intermittent glassware are much more sparkling than solid china—no matter how elegant. For every purpose there is now a glass service, and it is amazing how much variety of color, shape and design can be obtained, not to mention price range. From the simplest of colored glassware, heavy to the touch though pleasing to the eye, to the fragile, almost impalpable Lalique, any kind of dish or utensil or container is now available in glass.

Bathroom glassware may invite breakage, but it is cool and more refreshing to the eye than any other ware. Powder boxes, containers for manicuring equipment, accessories for the bath—in plain glass adorned with fancy colored lids or knobs, add an elegant touch, besides being easy to care for.

One housekeeper has found glassware the answer to a recurring problem—replacement of china. Some of her pieces, once broken cannot be matched, and instead of fussing over the closest match, she substitutes new and complete glassware for that particular service. This can readily be done when salad plates, fruit compotes or dessert cups go. But there should be no delusion about the perishability of glassware either!

### Cooks Often Judged by Flavor of Coffee

Many a cook is judged by the flavor of her coffee. An otherwise temptingly prepared meal may be ruined for a fastidious appetite by an unsavory cup of coffee. It is surprising the influence the condition of the pot has upon this delicate beverage. Even though the coffee pot is carefully washed after each using every now and then a treatment with bicarbonate of soda is important. Place a tablespoon of bicarbonate of soda in the pot that has been filled with water and permit the solution to boil for five or ten minutes. A solution of borax and water is similarly effective in sweetening the pot.

One of the exasperating occupations is trying to keep a good man down.

## HERE'S PLAN FOR SUNDAY DINNER

Fried Chicken Buttered Potatoes  
Brown Gravy  
Buttered Lima Beans  
Chopped Pickle Relish  
Bread Butter  
Vegetable Salad  
1, 2, 3, 4 Cake  
With Coconut Creamy Frosting  
Coffee

Vegetable Salad, in Gelatin  
1 package lemon flavored gelatin  
mixture

1 2/3 cups boiling water  
2 tablespoons vinegar  
3 tablespoons sugar  
1/2 teaspoon salt  
1 cup chopped cabbage  
1 cup chopped raw carrots  
1/2 cup diced cucumbers  
2 tablespoons pimientos  
Pour boiling water over gelatin mixture. Stir well. Add vinegar, sugar and salt. Cool. Add rest of ingredients. Pour into mold, chill.

1, 2, 3, 4 Cake  
1 cup butter  
2 cups sugar  
4 eggs  
1 cup milk  
1 teaspoon vanilla  
1 teaspoon lemon extract  
1/2 teaspoon salt  
3 cups flour (pastry)  
9 teaspoons baking powder  
Cream butter until soft. Add sugar, beat until creamy. Add other ingredients; beat 3 minutes. Pour into 3 layer cake pans fitted with waxed paper. Bake 25 minutes in moderate oven. Cool and frost.

Coconut Creamy Frosting  
3 cups sugar  
1/2 teaspoon cream of tartar  
1 cup water  
3 egg whites, stiffly beaten  
1 teaspoon vanilla  
2/3 cup coconut  
Mix sugar, cream of tartar and water. Cook slowly without stirring, until thread forms when portion is slowly poured from spoon. Pour into beaten egg whites. Beat until frosting is cold. Add rest of ingredients.

Chocolate Pudding  
(Using 3 egg yolks)

2/3 cup sugar  
4 tablespoons flour  
1/4 teaspoon salt  
2 squares chocolate melted  
2 1/2 cups milk  
3 egg yolks  
1 tablespoon butter  
1 teaspoon vanilla  
Blend sugar, flour and salt. Add chocolate, milk and egg yolks. Cook in double boiler until thick and creamy. Stir frequently. Add rest of ingredients, mix well, pour into glass dish. Cool and chill.

### Grape Juice Sherbet Refrigerator Recipe

Make a syrup by boiling one cup of sugar and one and one-half cups boiling water together for 10 minutes. Add one tablespoon gelatin which has been soaked in one-half cup cold water for 5 minutes. Cool then add four tablespoons lemon juice, one-third cup orange juice and salt to taste. Turn into refrigerator tray and freeze. Serve in sherbet glasses.

## SCALES ADVOCATED AS KITCHEN HELP

Nothing More Valuable for Use in Making Cooking Successful.

Now that so many homes boast a bathroom scales to remind one to watch weight regularly, perhaps kitchen scales will be equipped with household scales. For, curiously enough, many experienced housekeepers who readily buy all kinds of new equipment in the hope of saving a little time or effort, are oblivious of the help that this old-fashioned device furnishes.

Scales really are essential to the competently operated household as saucepans. And they can be used many times during each day. Nothing can be more helpful to successful cookery than a scales of good quality. For it is the perfect check on accurate measurement. One may take up a careless spoonful or cupful—let it be heaping instead of level, and the eye may not detect it. But if the recipe calls for four ounces, the scales will check up the careless hand. Sometimes an ounce more or less doesn't affect cooking results. But in the cooking requiring careful measuring—like cake-making, candy-making, preserving—the scales are a fine insurance against failure.

Also, scales may earn their price by the aid they give in checking careless merchants. Of course, this should not be necessary, but mistakes will happen in the best of shops. They don't happen quite so often if the housewife calls the occasional slip to the attention of the merchant.

All articles bought by weight—meats, vegetables, dairy products—should be weighed when they come from a new shop, so that first mistakes can be caught and repetitions avoided. If laundry is paid for by weight, the housekeeper with a scale on hand will know that she is not overcharged.

### ICED TOMATO JUICE

A palatable and hygienic drink can be made easily by merely straining a can of tomatoes through a sieve. Iced tomato juice offers a pleasant change from the regular fruit juice breakfast menu. A little salt may be added to taste, and if the juice is being served as an appetizer with luncheon or dinner, a dash of Worcestershire sauce gives it an added piquant tang.

## More Informal Dining Quarters Take Place of Once Stately Rooms

STATELY, symmetrical dining-rooms which were once considered an indispensable part of every living suite, are now giving way to more informal dining quarters. All sorts of odd spaces are being transformed into dining-rooms, as it were. A large foyer with a door leading into the kitchen. A bay window. A small alcove, but large enough to accommodate any set of furniture. With the equipment selected to scale, any of these are delightful dining places. And frequently in houses large enough to contain separate dining-rooms, the "breakfast nook" is so much more cheery that the family welcomes the opportunity to have meals in the less pretentious spot. Built-in furniture—which doesn't always mean that it's nailed to the floor—is extensively used in the small dining-alcove. It utilizes all available space, and the two high-backed benches resting against the wall will seat in comfort more persons than could be accommodated in matched chairs. But the built-in bench is also cozier than chairs, and if brightened up with gay cushions will make the corner with inadequate lighting seem sunny.

## Many Varieties of Apples Best for Cooking Before Fully Ripe

BEFORE they're absolutely ripe is the time when many varieties of apples yield their best cooking flavor. Green apples may hold unpleasant memories for the small boy who once had a surreptitious feast, but they provide many pleasant possibilities for the cook who finds herself with a generous surplus of underripe apples.

After paring and cooking with a minimum of water, the apples are ready for serving in any number of delightful ways. The quickest is to whip the cooked apple sauce until fluffy, then add flavoring, whipped cream, and pile in dessert cups. Ginger syrup or diced preserved ginger, chopped walnuts, pecans or almonds, honey of pronounced flavor, melted marshmallows, are a few of the flavors that blend well.

Apple sauce may also be made into a smooth, creamy dessert by mixing with equal parts of hold custard and some whipped cream, then chilled for several hours. Or it may be blended with gelatin and whipped cream to form an unusual type of Bavarian cream.

These underripe cooked apples are also just the thing to give a pleasant tartness to some of the insipid desserts like rice, tapioca, farina, cornmeal.

A man is a statesman if he doesn't have to bother about being respected and leaves that to "the boys."

## COMPLETE MENUS PLANNED DAILY

**Breakfast**  
Cantaloupe  
Ready Cooked Corn Cereal and Milk  
Poached Eggs  
Buttered Toast Coffee

**Luncheon**  
Sardine Stuffed Eggs  
Ham Relish Sandwiches  
Pickles  
Chocolate Cookies Iced Tea  
Dinner

**Tomato Savory** Buttered Beets  
Bread Butter  
Pear and Cheese Salad  
Cantaloupe Coffee

**Sardine Stuffed Eggs**  
12 hard cooked eggs  
1/2 cup chopped sardines  
4 tablespoons chopped sweet pickles  
1/4 cup finely chopped celery  
4 tablespoons salad dressing

Cut eggs in halves. Remove, mash egg yolks. Add rest of ingredients to yolks. Mix well. Stuff egg cases. Chill. Serve on a platter.

### Ham Relish Filling for 12 Sandwiches

2-3 cup chopped, cooked ham  
1/4 cup finely chopped sweet pickles  
1/4 cup chopped pimiento sweet olives  
3 tablespoons chopped green peppers  
1-3 cup salad dressing  
Mix ingredients with fork. Spread on buttered white bread.

### Tomato Savory, Serving 6

4 slices bacon  
2 cups canned corn (fresh can be used)  
3 tablespoons chopped onions  
4 tablespoons chopped green peppers  
1 cup chopped cooked ham  
2 cups tomatoes  
1/4 teaspoon pepper  
1/2 teaspoon salt  
Cut bacon in small pieces. Heat slowly and add corn, onions and green peppers. Cook slowly until well browned. Add rest of ingredients. Cook 5 minutes.

### Pear and Cheese Salad

6 fresh or canned pears  
1/2 cup grated yellow cheese  
1 cup diced grapefruit  
1/2 cup thick French dressing  
Mix the ingredients. Chill for 2 hours. Serve on lettuce.

Married life is sometimes a failure. Anything is, with some men.

GRANGE COMMITTEE  
TO VISIT MARIONExecutive Board of State  
Organization To Meet  
Saturday.

The committee will be host to the executive board of the Ohio State Grange organization to meet here Saturday. The committee here for the two-fold purpose of inspecting plans for the convention to be held here and to transact business.

The executive committee is headed by C. A. Dyer of Columbus, secretary of the Ohio State Grange, and J. H. G. of Gambier, Paul E. Burton, Vernon E. of North Lima, and Harry of Salem.

The meeting will be held in Hotel

Harding and will last a greater part of the day.

During the day, the committee will inspect meeting places arranged for the various sessions of the state convention and go over other plans with committees in charge. Although the committee has the power to remove the convention from this city if plans for the meeting are not approved there is little possibility that this power will be exercised.

Appointment of a deputy and deputy matron for Marion county will come up at this meeting. Mr. and Mrs. Williams are present incumbents and are eligible for reappointment.

The executive committee will arrive here Friday night for a Pomona grange meeting at Kirkpatrick grange at which several hundred Marion county grange members are expected.

## FORM G. O. P. CLUB

Organization Effected by Students  
at O. W. U.

DELAWARE, O. Oct. 13.—For the purpose of promoting an interest in politics among the students here, a Men's Republican club has been organized at Ohio Wesleyan university.

Officers elected at the opening meeting are: Paul Steer of Parisburg, W. Va., president; Francis Hughes of Wilmette, Ill., vice president; James McElhenny of Portsmouth, secretary, and J. Langley Plymale of Gallipolis, O., publicity manager.

The club which is one of 10 organized on the larger campuses of Ohio under the auspices of the state Republican club, will soon conduct a straw vote among the students on the state and local tickets. The group will also give teas and smokers for students who are interested in the elections.

## HOLD RECEPTION

P-T Association Entertains Teachers  
of Greenwood School.

A reception for teachers in the Greenwood school building was tendered by members of the Parent-Teachers association of the building Friday night.

Superintendent and Mrs. George A. Bowman assisted Mrs. Frank Knapp, president of the association, in receiving guests.

Music selections were given by Miss Melvina Summers, pianist, and Miss Clara Leffler, violinist, while Miss Donna Ruth Midlam gave a reading.

Superintendent Bowman and Earl N. Hale of the Y. M. C. A. spoke before the meeting, at which 150 persons attended. Bowman discussed the proposed three mill levy for school purposes. Hale talked on "Changing Conditions in Home and School."

A dialogue on education was given by the following pupils: first grade Margaret Alice Fletcher; second, James Grissinger; third, Betty Creviston; fourth, Robert Search; fifth, Gordon Bruun; sixth, Jean Holdridge; seventh, David Isaly; eighth, Robert Koehler, and ninth, Eleanor Flach.

Committees Appointed  
by Kirkpatrick P-T. A.

KIRKPATRICK, Oct. 13.—A meeting of the Parent-Teachers association was held in the school gym on Friday night. The meeting was in charge of the president, William Knowles. He appointed the following committees for the year: Program, Mrs. J. B. Swain, Mrs. Ira Heers, Jessie Daugherty, Mrs. Edgar Hill and Mrs. William Lenke; membership, Mrs. L. E. Weir, Joe Vogel and Frank Kurnis; ways and means, Mrs. Charles Lemke, Mrs. C. L. Baker, Rev. J. B. Swain, Mona Brillion and Mildred Loudenslager. Each of the teachers were introduced and responded with short talks. Music was furnished by the school orchestra under the direction of Mr. Tritchler.

Mrs. C. L. Baker was appointed a delegate to attend the state convention in Cleveland. After the business session, Clarence Kantzer of Bucyrus entertained with a variety program consisting of songs and short sketches.

Hallowe'en Social Held  
by Class of Church

BEECH, Oct. 13.—A Hallowe'en social was held Friday night at the home of Mr. and Mrs. G. H. Clatter by the Young Workers class and their families of the Salem Evangelical church.

The house was decorated in Hallowe'en colors. The class held its regular business meeting in charge of the president, Mrs. G. W. Seigent, with Mrs. Harry Tuttle conducting devotions.

Hallowe'en stunts were enjoyed. Mrs. Marion Smith and Robert Messenger won contests. Following the stunts, refreshments and a social time were enjoyed. The hostess was assisted in serving by Mrs. H. O. Shurey and Mrs. G. S. Fiant.

LaRue Hunter Fined  
\$25 for Shooting Bird

Reinh Delaven of LaRue has been fined \$25 in the court of J. F. Gast, mayor of Prospect for shooting a pheasant out of season. He was arrested Friday by State Game Protector O. H. Neimeyer.

All persons in Marion county interested in practicing commercial taxidermy are warned by Neimeyer to communicate with him regarding a permit. Regulations for taxidermists were changed Sept. 25 this year, according to Neimeyer.

District Officers Attend  
Meeting at Columbus

RICHWOOD, Oct. 13.—The district officers from Richwood attending the D. of V. district convention held in Columbus Thursday were: Mrs. Eva Pretymann, Mrs. Eve Stults and Mrs. Maude Blair. Others attending were Mrs. Maude Benedict of Prospect, Mrs. Anna Chapman, Mrs. Gladys Nye, Mrs. Cora Jenkins, Mrs. Anna Snyder, Mrs. Flora Davis, Mrs. Lena Moore, Miss Laureline Phelps and Mrs. Doris Cameron. Mrs. Cora Jenkins was elected the new district president. The visiting party were guests of the Columbus women at tea at the Governor's mansion. The convention next fall will be held in Richwood.

## VISITORS AT MEET

Papers on Prohibition Read at  
Session in Richwood.

RICHWOOD, Oct. 13.—Seven members and three visitors of the W. C. T. U. met Friday afternoon with Mrs. Nora Woods. The meeting was in charge of the president, Mrs. W. C. Woolard. Mrs. Dave had charge of the devotionals and read from the One Hundred and Twenty-First Psalm. The program opened with the song, "All Around the World." On the topic, "Give Prohibition a Chance," Mrs. Woolard read a paper, "The Liquor Traffic Had Its Day." Other papers

on the subject were read by Mrs. Charles Lindsey, Mrs. Lucinda Horn, Mrs. Arthur Fletcher and Mrs. Dave Neal. Mrs. Neal was appointed superintendent of the county legislature. The guests were Mrs. Walker of Plain City, Mrs. James Hanby and Mrs. Belle Rider.

Things to think about in connection with blowouts

- At sixty you are going 80 feet a second.
- A blowout gives no warning. It comes when you least expect it.
- Tire failure accidents are ten times greater today than a few years ago.
- It can take years to mend the damage done by a single blowout.

## THE NEW FORD

**\*RELIABILITY**

## NEW FORD COUPE

Fully enclosed four-wheel brakes . . .  
four Houdaille double-acting hydraulic shock absorbers . . . Triplex chatter-proof glass windshield . . . five steel-spoke wheels . . . torque-tube drive . . . three-quarter floating rear axle . . .  
Rustless Steel for exterior metal parts.

**\$495**

F. O. B. Detroit, plus freight and delivery. Humpers and spurs are extra at low cost. You can purchase a Ford for a small down payment and reasonable monthly payments. Ask your Ford dealer for details of the Universal Credit Company financing plan.

\*Of all the features of the new Ford there is none more important than reliability. It is a reflection of the substantial worth of the car.

Evidence of the high quality built into the Ford is the extensive use of ball and roller bearings. There are more than twenty in all—an unusually large number. From the engine to the road, the entire drive of the new Ford on all forward speeds is wholly on ball and roller bearings.

In addition to smoother operation, this saves gasoline, gives the car more speed and power, decreases noise and increases the durability and efficiency of every moving part.

Another important factor in good performance is the care with which the car is made. The aluminum pistons are an interesting example of precision manufacture.

Though weighing more than a pound each, they are made so accurately that they do not vary more than two

in weight. In size they are held true to within one one-thousandth of an inch. The wrist-pin holes in the pistons are diamond bored to within a limit of three ten-thousandths of an inch. In each motor, complete piston and connecting-rod assemblies are not permitted to vary from each other by more than 3 1/2 grams.

Throughout the car you find many other instances of this same accuracy in the manufacture and assembly of vital mechanical parts. Combined with simplicity of design and high quality of materials, it is the reason for the economy and long life of the car and the satisfactory service it is giving millions of owners the world over.

See the nearest dealer and have him give you a demonstration ride in the new Ford. You will know then that it brings you everything you want or need in an automobile at an unusually low price.

COMPANY

# RELIC OF PAST BECOMES MODERN HOME

## CHANGES MADE ON INTERIOR

Residence Becomes Most Up-to-Date in District After Modernization.

The picture below in good evidence that houses built several decades ago can be modernized successfully. Cast your eyes at this picture and see for yourself the changes in the group in the foreground. The leg of mutton sleeves and bouffant of the ladies

and the old horse and buggy in the middle ground speak of by-gone days.

The homestead appears as it was years ago. In those days it was a substantial, well-built house, painted at regular intervals and receiving proper care.

But with the passing of time, it grew old. New conveniences were introduced to the people and generally accepted by them. These comforts were denied the occupants of the old house for some time or other they never got around to installing them.

Now Modernized

Today the old homestead has been modernized. It is now one of the up-to-date homes of the countryside. The good substantial old lines have been slightly changed, a side porch of Colonial motif has been added, and a wide front porch now graces one end of the main structure.

New windows supersede the old time narrow sash. The upstairs windows on the sun side of the house are equipped with shutters which may be closed on hot summer days.

When the new porch had been placed on the end of the house a pair of French doors with many small lights were installed. These lead to a modernized living room.

Greatest Change Inside

Perhaps the greatest change has taken place within the old homestead. Like most old time houses, the accessories were out-of-date and decidedly obsolete. A modern

farm lighting system now provides electric lights throughout the interior. The family can have all of the comforts of the minute as expressed electrically. Floor lamps, electric washing machines, vacuum cleaners, toasters and percolators are in everyday use.

The installation of a modern septic tank down the hill enables a modern bathroom to be installed. Here are found running water and a delightful shower so that the men folk can cleanse themselves after a hard day in the fields.

Not only in town, but also in the country are many old homesteads that need modernizing.

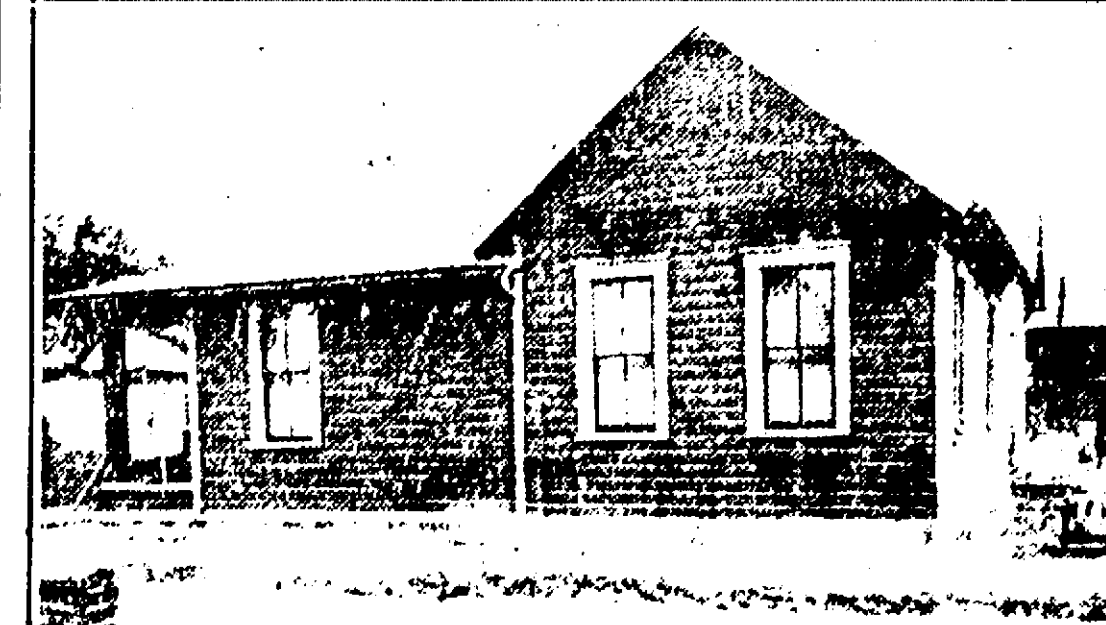

What does a turtle turned on its back think about? Imagine!

## HOME OF HORSE-AND-BUGGY DAYS MODERNIZED

This clean cut, modern home was built back in the days when leg of mutton sleeves were the styles among the ladies. Note the old homestead in the view to the right. The dwelling when modernized is pictured above.

### SHINGLES ADD TO BEAUTY OF HOME.

The house pictured above, located at 120 Waterloo street, was recently covered with Bird's Art-Brick Shingles. The cost is no more than that of a good paint job and the home is doubly insulated, consequently much warmer. The H. C. King Lumber Co., distributors of Bird's Art-Brick Shingles will gladly supply you with information.

**Dog Twice Saves Woman from Rattlesnake Bite**  
LUSK, Wyoming—Mrs. Clarence Bray is alive today because she has a "rattler conscious" dog. Twice within the past week the dog has warned her of the presence of a rattlesnake. Once she was asleep in the yard when the dog woke her up with his barking when a snake was coiled ready to strike her. The next day the dog knocked her aside in time to save her from a deadly bite.

## REMODELING MAY BE DONE IN ANY SEASON

Program Possible Regardless of Time of Year; Photographs Aid in Planning.

The principles of the home modernizing movement are applicable to any out of date house, no matter what may be the time of the year. Modernization is possible during any season.

Many home owners who hesitate to improve their homes are laboring under the impression that season has something to do with the movement. Under certain conditions the time of the year enters into the calculations of the builders, but as a movement there is neither winter or summer. You can start to modernize at any time.

What's Wrong With House?

One of the first steps in modernizing is to discover what is wrong with the house. Every house that was built five years or more is behind the times in some respect. Something needs to be reformed or some new improvement has been presented to the public that will add to the comfort and convenience of the household.

Exterior Work Important

If your house is one of the old ones, you will want to re-model the exterior. You can take a bolt, upright lines by some simple device, as adding a sun parlor window that sweeps out from the oriel.

The high, narrow window eliminated in favor of window grouped two or three to an opening as this practice gives more day-light to the interior and also aid ventilation.

The window trim in use now is simple. It is often painted a contrasting color to the main body of the dwelling, for this brings out architectural lines of the structure.

Before you start to remodel a number of kodak pictures of the house as it originally stands. Study views to see what improvements can make. Consult also with the dealers and contractors. They had experience in remodeling know what to do to improve the lines.

## Will Fall Rains Find Leaks in YOUR ROOF

Star subscribers will greatly facilitate good delivery service by making all communications to the office, not to carriers. Phone 2314.

Daily Proverb—"When error is committed good advice comes too late."

The least the senators, who are holding out the obscene books seized by the Unit States, can do to avoid trouble is to put 'em into general senate circulation.

Major General Smedley D. Butler was last week reported as ready to quit the marine corps. Huh! Smedley has been ready to quit ever since he didn't land command of the corps.

"Poison Rum Kills Nine in Newark Within Forty-Eight Hours" reads a headline over a story from that New Jersey city. That's taking 'em off rather rapidly even in this era of Volsteadism.

Havana reports that the Cuban revolution has been postponed because the island is not yet ready for it; that it must be deferred until the Cuban public wants one. The Cubans probably have a long schedule of cock fights ahead.

San Francisco has supplanted two gardeners, who have been trimming shrubs about the city farms, with fifty goats, relying on the goats not only to trim the shrubs, but also supply some of the lesser poultry on the municipality's payroll with milk. There's civic efficiency for you!

New York ambulance drivers who sound their sirens excepting in emergencies are to be penalized. It's refreshing to know that at least one American city has rebelled against a practice that has become a nuisance.

Bishop James Cannon, Jr., has been replaced as chairman of the board of trustees of Blackstone college for girls founded by him twenty-four years ago. Just at present, no doubt, the bishop is getting a lot of consolation out of that Biblical passage to the effect that the Lord punisheth those that love him.

Mary McCormick, Chicago Civic opera star, is reported to have been frankly elated over the news that Pola Negri had begun a divorce proceeding against Prince Serge Milvian in Paris, which comes pretty near to our idea of nothing-minus in the way of world news.

Mrs. Willys, wife of the United States ambassador to Poland, is reported in a Warsaw cable to have purchased for \$60,000 an Indian-Peruvian rug, measuring twenty-five by sixteen feet, dating back to the seventeenth century which formerly hung in the Palace of Mirrors at Amber. Think of the microbes a rug of that size could pick up in 300 years!

The seventh biennial convention of the United Lutheran church in America, in session in Milwaukee last week, referred to newspaper editors as "amateurs in religion." Well, as a matter of fact, it's the exceptional editor who even so much as attempts to profit financially on the strength of the religion he may possess, which comes pretty nearly clearing editors as a class from the charge of professionalism.

## The Star's Cooking School.

Were the facts known, there might be ample support of the oft-quoted assertion that half the world's ills are due to bad food. No matter what the proportion, there can be no doubt that bad food, whether it be bad originally or made so in its preparation, is responsible for a great proportion of the world's ills, physical and mental alike, for physical ills undoubtedly have their effect on our mentalities.

Bad food can be made from raw materials of the highest class. Good food can be made from materials which are inexpensive, by good food being meant that which is alike appealing to the taste and good for the human system.

For this reason the four-day cooking school to be opened in the Star auditorium, Tuesday, and conducted by Mrs. Emily M. Lantz under the sponsorship of this paper, should prove of great appeal to the women of the city, whether they be housewives, prospective housewives, or young women and girls who have come to recognition of the fact that no girl's education is complete unless she knows how to cook, and to cook well.

Star cooking schools in the past have proved alike interesting and profitable and have been splendidly attended. The school to open tomorrow will prove probably an exception to the rule only in that the profit to be derived from it will be augmented.

A feature of especial interest will be the question and answer period. Mrs. Lantz, as has been announced, plans to take ample time to answer the questions which are uppermost in the minds of her audiences, that all may reap benefit therefrom. Another feature will be her discussion, during one of the sessions, of the household budget plan. Mrs. Lantz believes that a household budget system, in addition to a business-like program for the scheduling of expenditures, should embrace a comprehensive plan for saving. Thus her school will be directed to the monetary education of the housewife as well as the culinary.

## Cycles of Relief Legislation.

The twelfth American Legion convention, which met in Boston last week, drew attention to an issue that has been inactive since the close of the seventy-first session of congress—veteran aid measures. During the last day of the convention, delegates defeated a proposal asking that eighty per cent. of the face values of adjusted compensation service certificates be paid.

Their objection was that such action would be a means of dragging the legion into politics, since it apparently was intended as a blow to administration policies.

The incident serves to illustrate the difficulty of making fair and reasonable decisions on veteran aid policies. There is and confusion about ideals and moral obligations, finances and politics at every turning. It is manifestly unjust that a man who, in the pride and vigor of his youth, wasted his health in the service of his country, should go begging in his old age, or that he ever should want for the necessities of life. Unfortunately, however, the hero's welfare is made the concern of unscrupulous politicians who, over-anxious to get votes, do not hesitate to draw on the public treasury without stint. In the history of the United States there are numerous instances in which this has happened. Nearly twenty per cent. of all federal expenditures in 1929, incidentally, were made for veteran relief.

If it were a clear case of moral obligation, every man who had served his country would receive adequate compensation for life, whether or not he went to war voluntarily. If it were a clear case of finance, the nation would divide that portion of its income which it could afford to spend for such purpose equally among deserving veterans. If it were a clear case of politics, upward revision of veterans' compensation would be unlimited, because there is no better way to get votes. This year and other years veterans have been urged to "give active support to their friends." Fortunately for the veterans and for the state, each factor that has bearing on the issue of veterans' relief serves as a check upon the other.

Over a period of years, a cycle of relief legislation may be noticed after each major war. The cycle follows precedents established in legislation for the benefit of veterans of the revolutionary war. Pension provisions were made before the war ended in 1783. In 1805 more liberal provision was made for veterans who could show a direct connection between their disabilities and war injuries. In 1818, service pensions, payable to all veterans in needy circumstances, were introduced. In 1828 and continuing for four decades, congress progressively liberalized all earlier legislation and eventually granted pensions to all survivors who could prove they had participated in the war. It will be noted that the years separating the various steps in the cycle have diminished sharply in the case of Spanish-American war pensions—seven months sharply in World war pensions.

Even so, several dependable promises have been made that further liberalization will be made during the next session of congress. Senator Walsh, of Massachusetts, Democrat, said at the close of the debate on the World War veteran bill that abandonment of the provisions which congress had endorsed earlier left "no one . . . satisfied. The movement will begin at once to point out the discriminations and we are going to have the problem right at our door again in December." Whether the senator is correct or not, the past history of pension legislation indicates it will continue to be of major political importance for years to come.

## Master of Them All.

It is to be his last concert tour in the United States, Ignace Paderewski told reporters when they met him at the dock on his arrival at New York. More exact than ever, more deliberate in his speech, the master showed little sign of his recent protracted illness. He now is in his seventieth year.

America, whose appreciation for the talent of Paderewski apparently is unbounded, glories to think that his promise probably will be kept. He plans to make his seventy-two appearances before the first week of next May—an ordeal which he can not hope to repeat at his advanced age.

What does the great master have to say of the country which has been so generous to him? Nothing more welcome, perhaps, than that America surpasses even Germany in appreciation of music. Whereas music is taken for granted more generally in Germany, there is not the seeking after the now that there is in the younger country. Radio, Paderewski says, is neither an enemy to good music, nor a valuable aid. The automobile is the real enemy with its speed, the absorption of time and interest it demands. He has no criticism for jazz. Some of American modern music, he believes, will last.

These are pleasing opinions to Americans, for many of whom Paderewski is the epitome of gracious musical mastery and whose opinions are cherished as a part of their own musical tradition.

Thousands will see and hear Paderewski in his farewell tour, and thousands more will covet the opportunity. All ask only that time dealt gently with him. He still is the greatest living master of the piano.

From Washington comes the story that the explanation of the wholesale desertion by Pennsylvania Republican leaders of Gifford Pinchot's candidacy for governor is that he hopes to become political boss of the state to advance his aspiration for the presidency. Heaven keep us from such a fate as that!

Eighty Mexicans met death at San Carlos, in the Mexican state of Tabasco, when gasoline was poured about a church there and fired. Those who were not burned were shot down when attempting to escape by "religious enemies." The number of those murdered in the name of religion is simply beyond human understanding.

Following weeks of daily banqueting, Major Dieudonne Coste and Lieutenant Maurice Bellonte last week reached New York City, finishing their good will tour of the United States seemingly none the worse for the punishment they sustained. Why this talk about the super-man of the future? Here are two of the present.

## CAN HE STEER IT THROUGH?

Editorial Opinion.

## NYE CROWD GOES TO NORTH CAROLINA.

With the approach of cool weather the senate committee that is investigating primary campaign expenditures moves south into North Carolina, where Senator Simmons recently was defeated for re-nomination on the Democratic ticket by Mr. Bailey, and feeling runs high, and "slush fund" and "ballot box stuffing" charges are prevalent. Observers in the state are of the opinion that a possible, practical effect of the intrusion of Messrs. Nye et al. on this situation may be the election of a Republican senator, as a result of an accentuation of the scarcely admitted-over split among the Democrats.

The people of North Carolina best know their sorrows, and whether there are or are not sound reasons for the accusations the discomfited Simonides are making. But he is large or small, those sorrows are theirs exclusively. They belong to nobody else, and are the business of nobody else. Whatever may be the legitimate concern of the senate with the outcome of the impending senatorial election in that state, after it has taken place, it is a great piece of impertinence for the body unasked to send in at this time a committee of its members to pry, moop, muckrake and stir up political trouble which may affect the decisions of the voters in November.

If by using intimidation or by playing off one faction against another, or by any other process, the Nye committee deflects the verdict at the polls from its normal course, it will be a tenable contention that the people of North Carolina have been hampered in exercise of the right to select their own officials, as a result of usurpative interference from Washington. And from that sort of thing there are not many steps to practical designation by the senate of its president.

We hope that some day some state will say to the senate committee now headed by Mr. Nye, "Get out of here and mind your own business and we will attend to ours without your help." However, hope is not equivalent to expectation.—Detroit Free Press.

## The Old Willow at Put-in-Bay.

It is a notable fact that in this state, as well as elsewhere, elms have been connected widely with historic events. Probably because of the great spread of the branches of these trees they have offered the best places for conferences, treaty making, etc.

By a regrettable mistake made by a local committee whose purpose was to mark a historic spot in the state, Ohio missed having an historic willow. There must be a great many people living in the state who can recall, when they visited Put-in-Bay years ago, there was a willow tree standing near the lake shore where the American and British sailors killed in the Battle of Lake Erie, September 10, 1813, were buried.

It is said that a few days after the battle a ship came out from Vermilion with supplies for the American fleet. While there the master of the supply ship went ashore and visited the place where the dead had been buried. He carried a green willow walking stick and on leaving he stuck this into the soft earth of the mound and left it there. It took root and grew into the large, if unsymmetrical willow tree that is well remembered.

About twenty years ago officials of the state historical society suggested that the spot should be better marked and a local organization proceeded at once to put the thought into action. On the whole, their plans were well conceived and carried out, but they involved a removal of the old willow tree that had earned a right to existence and had sufficient historical value to warrant its preservation.

## Newest Notes of Science.

Air is drawn into and out of an automobile with a new ventilator by the motion of a car without creating drafts.

A track-testing car used by an English railway records side sways, backward and forward motions and upward jerks.

A new fire-extinguisher has a pistol grip and a trigger release, aid in aiming its contents at an intended spot.

Czechoslovakia has increased its consumption of electric current fifteen to twenty per cent. annually for the last eight years.

The number of transits, net tonnage of vessels and weight of cargo passing through the Suez canal established new high records last year.

## The Word of God.

By faith Abel offered unto God a more excellent sacrifice than Cain, by which he obtained witness that he was righteous, God testifying of his gifts: and by it he being dead yet speaketh.—Heb. 11:4.

Prayer—Ah, grace into unlikeliest hearts it is Thy boast to come.

## Weather and Rheumatic Pains.

BY ROYAL S. COPELAND, M. D.

A popular notion, long believed by everybody, is that sufferers from rheumatism are good weather prophets. Recent experiments made by scientists of the Mayo foundation appear to prove this age-old theory.

How often have we heard someone say: "I feel it in my bones that it is going to rain." But just why this should be true has never really been solved.

According to a report made to the American Medical association a short time ago, the Mayo investigators studied, over a period of a year, 367 patients suffering from arthritis, or rheumatism. The study was undertaken to determine whether there was actually any relationship existing between rheumatic pains and the changes in the weather.

It is reported that for more than ninety per cent. of the time the experiments showed a relationship between stormy weather and an increase in the pain. During seventy-two per cent. of the time the patients seemed to suffer more pain as the barometric pressure fell. During a rise of pressure they experienced relief. For twenty-one per cent. of the time the curve of pain ascended as the barometric pressure descended, and vice versa.

There were included in the experiments observations on the humidity, temperature and atmospheric electricity. It was thought that these factors working together might have some effect.

It is well known how restless birds and animals are before a storm. They seem to have a foreknowledge of approaching bad weather long before there is any sign of it in the sky. Seagulls often come far ashore before a storm. Migratory birds are on the wing at such a time. Hogs bed themselves down and cattle seek shelter long before a change in the weather is noted by man.

Rheumatism, and many other diseases, cause the nerves to be particularly sensitive. In bad weather the low barometric pressure, which has its effect on the free action of skin and a consequent lessening of the escape of water from the body, sets up a nerve irritation. The perspiration is lessened, and on this account probably the rheumatic pain increases.

Persons who suffer from rheumatism should keep the bowels freely open. They should eat moderate in eating and drinking and avoid alcoholic drinks. They should lead a simple, regular life.

Local treatments of dry heat, stimulating liniments, electricity and judicious massage will help the rheumatic pains. But as rheumatism is, directly or indirectly, a germ disease, the only real cure is a clearing up of the seat of the trouble. It may be in infected teeth, tonsils or adenoids, or from the toxic poisons in the intestinal tract. There are many causes for this condition. A doctor should be consulted in all cases of rheumatism, and especially in cases appearing in growing children.

## ANSWERS TO HEALTH QUERIES.

L. C. Q.—Will drinking too much warm water affect the stomach?

A—No.

A. O. N. Q.—What will strengthen very weak wrists?

A—Massage and exercise should prove helpful. It would be rather difficult to make suggestions along these lines without knowing just what condition exists.

A Reader, Q.—What causes a stitch in the side?

2—What causes canker sores in the mouth?  
A—This may be due to neuritis.

2—This is usually due to acid in the system. Correct your diet and avoid poor elimination.

R. M. F. Q.—What do you advise for pimples?  
A—Correct the diet by cutting down on sugar, starches and coffee. Eat simple food. Avoid constipation.

Mrs. C. M. Q.—What foods and what exercise would you recommend for reducing?

A—Restricting the sugar and starch in the diet and taking some regular, systematic exercise daily should bring about the desired results. For full particulars send a self-addressed, stamped envelope and repeat your question.

Mrs. N. J. B. Q.—What is advisable for a constantly sore tongue, heavy coating and enlarged papillae. Have tried various treatment without success.

A—Correct the underlying cause first of all. Watch the diet, restricting the sugar and starch foods, and be sure to keep the bowels open.—Copyright, 1930, by Newspaper Feature Service, Inc.

Dr. Copeland will answer for readers of this paper questions on medicinal, hygienic and sanitation subjects that are of general interest. Where the subject of a letter is such that it can not be published in this column, Dr. Copeland will, when the question is a proper one, write you personally. If a self-addressed, stamped envelope is enclosed. Address all inquiries to Dr. Royal S. Copeland, in care of this paper.

## A Scientific Truce.

BY ARCHIBALD HENDERSON.

Three years ago when the British Association for the Advancement of Science met in Leeds, the Editor of *Hypocrite* suggested in a sermon that it might be well for the world if science were to take a scientific holiday for ten years. Although at the time the suggestion was regarded as semi-jocular, the idea has since cropped up again and again in public discussion. To scientists generally the suggestion seemed fantastic, and was greeted with a patronizing smile. But is it so fantastic after all? Science has been and continues to be a peacemaker for the thought and action of the world. Hasn't science forced the pace? Aren't we being driven too fast for comfort by that relentless master, science?

In one respect, certainly, public opinion and public action might well call a halt upon the steady progress of science in the production of death-dealing weapons, lethal instruments, poison gases. We have international conferences pointing toward a general reduction and limitation of armaments. These conferences, thus far, have accomplished little in actual reduction. At least they are putting a temporary stop to competition. They point along a highway which leads toward peace.

Scientists might have international conferences designed to study world problems, and agree upon uniform programs of action in place of cut-throat competition. Population problems are beginning to loom large upon the world's horizon. Legislation upon the subject of birth control, as a limiting force on population, seems imminent. Questions of quota in matters of immigration are now definitely established by law. It is conceivable that science, by international agreement, might lay down a population quota for each nation, in order to avoid the great danger of overpopulation.

Suppose, however, the nations of the world were to place an embargo on all scientific inquiry. The losses to the world would be incalculable and irreparable. What ravages of plague, fire, disease, the menace of insects to crops and vegetation, floods, natural disasters of all sorts might occur, were science not allowed to advance and provide new remedies for accumulating evils? How many losses to science might occur, the value of which could not be foreseen? Fasten, on the basis of the studies of his predecessor, made profound investigations in the effort to discover the cause of fermentation. In so doing, he little knew that, by these investigations, he was laying the foundation of modern medicine. When Pierre and Marie Curie, the physicists, made those extended researches which resulted in the discovery of radium, they never dreamed of the invaluable therapeutic uses to which radium was destined to be put.

No, the world can not afford to take a scientific holiday. Taking science as a peacemaker, the other departments of human activity must move faster. We must try to emulate science. We must try to catch up with science.—Copyright, 1930, International Feature Service, Inc.

## Dinner Stories.

"Are you going to betray the people after they put you into office?"

"My dear sir," answered Senator Sorghum, "you misapprehend. The people did not put me into office. And shall I go back on the men who did?"

Bumruster—"I hear that Henmore Farms daily stamps all its eggs with name and the date laid, so you can tell just how fresh they are."

Piebust—"Yes, the last dozen eggs I bought from them were the freshest I ever had—I got them a week ahead of the date of issue."

"So your wife objects to your playing the races?"

"Yes. She is afraid that if I keep on she will have to resign from her afternoon bridge club."

"Ernest," said the teacher, "tell what you know about the Mongolian race."

"I wasn't there," exclaimed Ernest hastily. "I want to the football game."

"Mike," said Plodding Pete, "does you hear dat stimp speaker say de world owes us a livin'?"

"Yes. But dere's no harder job on eart' dan collectin' bad debts."

Foreman—"Well, everything all right?"

Night Watchman—"Yes, I haven't done so bad for the first night. I've checked off everything, and there's only one thing missing—the steam roller."

Moether, admonishing small son—"And don't forget that I'm your mother."

Small son—"Yes, but I do wish you wouldn't keep swanking about it."

"State tax not changed," says headline. And here we were expecting after listening to the various primary candidates, that state taxes were about to be abolished.—Ann Arbor News.

## Still Some Doubting Thomases.

There seems to be an astonishingly large number of people who don't realize that Ben Franklin was a person of experience and knew what he was talking about when he said that honesty is the best policy.—Detroit Free Press.

## New York Day by Day.

BY O. O. MINTYRE.

New York, Oct. 13.—Diary of a mod Peppy: In a high pet over a tradesman putting every order over the telephone with "O. And I'll join a league for the suppression of that phrase, if there are no dues. And John Neylun dropped by with Lee Olwell as did Topitzky.

To talk to a publisher who recalled the p Robert W. Service was minus an arm which I never knew had forgotten. Then came some zanyies divided over the respective merits of Joseph Conrad and Herman Melville and I find them both extremely tiresome. And so right out.

At my typewriter and John Horgan, of Cincinnati Sinton, phoned, inviting me to pow-wow out there, promising a welcome to my name in lights, which mightily tickled vanity. Later to see Frank Craven in his excellent new play and he is about my favorite actor.

An army of squatters are encamping on fringes of New York preparing for the rig of winter. While there are many such communities along Pelham parkway and reaches of Long island, the biggest squatter village sprawls topsy-turvy near Surf ave. at Coney island.

Here are more than 300 shacks of tin and driftwood and salvaged boxes. Entire families live in this turgid tranquillity without paying rent. They have their own laws and in instances appoint juries to settle disputes. Some time they become incredibly filthy.

And like Kasper Hauser, in his dungeon, live nowhere else. Squatter's land is usually property purchased for speculation and is in hope of really booms. As a rule there's nothing that can be harmed and the owners offer no objections to invaders until a boom comes.

Harlem, thirty-five years ago, was cluttered with squatters—"McFadden Flats" with rust tin can chimneys and moldy straw roofs. Cogan's Bluff, overlooking the Polo grounds, or bristled with squatters and their goats. My descendants of Cogan's bluff squatters are now camped at Coney and have never p tent in their shiftless lives.

Astute land developers do not object to squatters. They are omens of good fortune and instances inured interest in abandoned areas. Even the architectural squalor to the practical eye shows possibilities of development. Many of the hills around New York were of dump heaps of tin can shanties.

Personal nomination for the tangiest breakfast sausage in town—that served at Billings.

A fairly well-known actress has been unable to secure employment for three years. Producers receive her politely, but have nothing. She had saved letters of a long ago sentimentality for "a rainy day" and when the producer married made him pay—hence the black-bill. Even sin-saturated Broadway has its code.

Nothing is so baffling as those moments cerebral status—if you manage that one you future is assured—that come to unfortunate of the writing fraternity. This morning in the midst of a chin-cupping pose and a dog-scratching-a-flea look of vacancy the phone gave a startling ring. A soft voice inquired: "Are you so worried, darling?" It was some one getting a wrong number, but I let go a set of flutters that were a treat.

There was another time in a Rouen, France hotel when I rang for a breakfast waiter. When I started to hand him the written order, he loyally gave a quick start. A month before I served my before-sailing breakfast in New York as well as other breakfasts for years. It is small world, but it doesn't have to be so small, for goodness sake.

From a news item: "He spends practically all his time in one of his three yachts but has taken a ten-room suite at an upper Fifth avenue hotel for a week or so."

Up that isn't land-lubbing do luxu you think up one.

Through an open window across the coast I hear a gentleman explaining on the phone "I'm sorry I can't be there but

## CAPONE ELUDES LAW IN SPITE OF SNARES

### Surprise Raid on Cicero Falls To Flush Notorious Gang Leader.

By The Associated Press  
CHICAGO, Oct. 13—The "No. 1 public enemy," Alphonse (Scarface) Capone, continues despite the snares set for him, to elude the law.

A surprise raid on Cicero, the suburb that acquired an unenvied name as the haunt of the Capone "mob," failed to flush the gang leader yesterday, but it was not entirely a lost effort. Twenty-nine men and a woman were arrested, and among them were three somethings of the gang business—Wil-

ham (Three-fingered Jack) White, (George) (Red) Barker and Claude Maddox. White and Barker are "public enemies." Maddox has been hunted for many weeks for questioning in connection with the murder of Alfred (Jake) Lingle, Tribune reporter.

raid, which was directed against the Western hotel which was presumed to be the hideout of Capone. He is hunted on a vagrancy warrant, the same as were sworn out for all 28 of the men listed by the Chicago crime commission as "public enemies."

## ILLNESS OF 2 WEEKS

Mrs. Lillie Van Vlerah, 49.  
Claimed at City Hospital at  
6:30 A. M. Today.

Mrs. Lillie VanVlerah, 49 of 434  
West Fairground street died this

morning at 6.30 a. m. of the effects of a stroke of paralysis. She died at City hospital after a two weeks illness.

Surviving with her husband,

John VanVleah to whom she was married in 1898 at Bowling Green, O., she leaves eight children, Harry Van Vleah of Owens Station, Henry Van Vleah of Uncapher avenue, Pearl and Margaret Van Vleah of Lee street, Mary, Ralph, Lillian and Nellie Van Vleah at home. A sister, Mrs. M. H. Groat is living in Toledo.

Mrs. VanVleah was born Oct. 24, 1881, in Uding Sun, O., to Gush and Eva Blessing Barkley, both of whom are dead.

Funeral arrangements will be made upon the arrival of her sister from Toledo. The body is at the W. C. Boyd funeral home pending the arrangements.

By The Associated Press  
WASHINGTON, C. H., Oct. 13  
— The Fayette county grand jury was recalled into session today to hear the reports of special investigators who have been examining the affairs of the closed Ohio State and The Peoples & Diversa banks.

The jury has heard a number of witnesses, including Mal S. Daugherty, former president of the Ohio State bank, but adjourned

while the investigators continued their work.

LODGE NEWS  
ART, MUSICMid-October Finds Clubs  
Well on Way for '31 Season

MID-OCTOBER finds the club season of 1930-1931 well launched and activities for the year definitely outlined. Among the clubs presenting programs this week for the first time this season, are the Lecture-Recital club, Searchlight and the Woman's Century clubs.

Members of the Lecture-Recital club will present a guest artists program tonight at Hotel Harding. The Searchlight club members opened their season this afternoon with a meeting at the home of the president, Mrs. H. F. Pulsford of Cleveland avenue. The only paper on the program will be presented by Mrs. J. H. Jackson.

Members of the Woman's Century club will meet for their first program Tuesday evening with Miss Jean Freer as hostess. A discussion on phases of political economy will be in charge of Mrs. S. G. Rosenberg.

Couple Weds at  
Evangelical Parsonage

The marriage of Miss Florence Mae McChesney of 306 Forest street and Earl Raymond Fichtner of Richmond township was solemnized at 8:30 o'clock yesterday morning by Rev. LeRoy Delinger, pastor of Grace Evangelical church. The double ring service was read at the parsonage at 658 Mt. Vernon avenue. A wedding dinner was served at noon at the home of the bride's parents, Mr. and Mrs. W. S. McChesney of Forest street. Mr. and Mrs. Fichtner will make their home at 218 Clover avenue.

## STOMACH UPSET

Get at the real cause. That's what thousands of stomach sufferers are doing now. Instead of taking doses, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards Olive Tablets help arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, people rarely suffer from indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, do-nothing feeling, no ambition or energy, trouble with undigested foods? Try Olive Tablets, the substitute for cologne. Dr. Edwards Olive Tablets are a purely vegetable compound. Know them by their olive color. They do the work without gripping, cramping or pain. All druggists, 15c, 30c and 60c. Take one or two at bedtime for quick relief. Eat what you like—Ad.

Legion Auxiliary  
Elects Mrs. Gretser  
for Seventh Year

MRS. GEORGE A. GRETSER was named secretary for the seventh consecutive year at the annual election of officers for the American Legion auxiliary held Friday afternoon in the Legion dugout. Mrs. Elmer E. Smith was chosen president, Mrs. Marie Herr Frank, first vice president, Mrs. W. A. DeLong, second vice president, Mrs. Harry G. Baker, treasurer, Mrs. J. A. Morrison, Mrs. C. G. Francis and Mrs. C. H. Bower were named to serve on the executive committee. Arrangements were made to attend the conference of the sixth district to be held Oct. 31 in LaRue. It was voted to fill Christmas bags for soldiers in response to a request from the Red Cross chapter.

FORMER MARION MAN  
TAKES NEW CHURCH

Rev. Alfred W. Swan To Assume Pastorate in Madison, Wis.

Rev. Alfred W. Swan, pastor of Forest Lawn Presbyterian church for five years, has been called to the ministry of First Congregational church of Madison, Wis., according to word received here from Greeley, Colo., where he has been pastor of the Park Congregational church since 1927.

Rev. Swan left Marion for the west because of his health, and went to the Park church in June of 1927. Since then he has become active in community affairs and was recently elected chairman of the Greeley community chest.

Mr. and Mrs. Swan will move to Madison in November.

## HOLD RALLY DAY

MT. Gilead Church Sunday School Departments Give Program.

MT. GILEAD, Oct. 13.—Rally day was observed in the Sunday school of the First Presbyterian church Sunday. Approximately 250 were present at the morning session. The committee in charge of the program was H. T. Krout, Mrs. Daniel Hamill and Miss Ellen Blake.

The following program was given: song by school; recitation, Dean Breese; promotion exercises, candle roll to beginners' department; welcome, Phyllis Ann Myers, presentation of diplomas, exercises, Mrs. C. E. Lloyd McNay; promotion exercises, beginners to primary department; responsive welcome, Mary Louise Hamill; presentation of diplomas, recitation, Anna Grace Wiswell; Bible verses, Mrs. Myrtle Vanatta's class; promotion exercises, primary to junior department; responsive welcome, Virginia Graves; presentation of diplomas, exercises, Elaine Baker's class; processional, Helen Jolley; song by school; prayer, Rev. Daniel Hamill.

## CHAPTER HOLDS PARTY

Members of Lily chapter, World-Wide guild of Trinity Baptist church, entertained with a ghost party Friday night in the church parlors. The time was spent socially and with games. A playlet was given by Misses Helen Wood, Marjorie May, Pauline Chambers, Trella Hammerly, Beatrice Un-capper and Lucile Houson. Refreshments were served.

## TO TALK OF SCHOOL

"Health and Natural Food" will be the subject of a free talk to be given by Louis C. Schaefer Wednesday night in the cafeteria of St. Mary's parochial school. The program which will start at 7 p. m. is being sponsored by members of St. Mary's Parent-Teachers association.

## START \$500 DRIVE

KENTON, Oct. 13.—Plans to raise approximately \$500 for the Athletic association of the Kenton High school are being shaped by association officials under the direction of Donald V. Holwerda and Charles Seely, athletic directors of the school.

## PRACTICAL HOUSE DRESS

PATTERN 2033

2033

Here is a serviceable frock to wear when working about the home. The collar and vester, both pointed in attractive manner, top a long slendering panel that forms two pleats affording ample freedom in the skirt. Long or short sleeves may be used. Tiny pearl buttons trim the vester.

Pattern 2033 is neat and crisp made of wash silk, percale, gingham, plique, dimity or rayon. The trimming may be white or the outstanding color of the design. Plique is nice for this, and launders beautifully.

May be obtained only in sizes 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42 and 44. Size 18 requires 3 1/2 yards of 39 inch material.

## COUPON

This pattern will be sent on receipt of 15 cents. Make number, name, address, etc., plain. Send to the pattern department THE MARION STAR BUREAU, Pattern Fashion Syndicate, Inc., 243 West 17th St., New York City.

MARION KIWANIS  
AT TOLEDO MEETING

F. L. Alexander and G. Farr Larie Aro Delegates from Local Club.

Marion Kiwanis club was well represented in the evening session of the state Kiwanis convention at Toledo this morning. Headed by President F. L. Alexander and G. Farr Larie, delegates, a group of seven or eight Kiwanians left this morning to hear the optimistic message prepared for the convention by District Gov. J. Guy O'Donnell.

O'Donnell said only to save the 127 clubs in the state are in a weak condition and that they have "been doing a more constructive service to their communities this year than in past years. Activities have been more widely participated in by the membership and a fine spirit has been developed all over the state."

The convention, drawing several hundred delegates from over the state, will last through Wednesday.

County Institute Dates  
Set for Next Year

KENTON, Oct. 13.—Four farm institute sessions are to be held in Hardin county next year. The institutes and dates are: Patterson, Jan. 12-13; Jumbo, Feb. 16-17; Roundhear, Feb. 16-17 and Dola Feb. 18-19.

## RETURNS TO HOME

GALLON, Oct. 13.—Miss Margaret Nichols who has been undergoing treatment at the Jane Case hospital at Delaware, was brought to her home Sunday. Miss Amy Green was removed from the Good Samaritan hospital, Monday to the Nichols home on South Union street, where she will reside.

## EXAMINES CITY OFFICES

Examination of city records and accounts for the last 15 months period was begun this morning by State Examiner George Dustman. He will be located in a room adjoining the office of City Auditor J. L. Landes during the examination. He is working without an assistant, and is engaged in the regular periodical examination.

Dry Shampoo for Blondes  
Keeps Wave in Place

Dry shampoos usually are welcomed by the woman with exceptionally oily hair, especially during the Fall and Winter seasons, when the smartness of the ensemble depends so much upon the meticulous care one gives to the details of grooming.

During the warm weather, coiffures may be careless as long as the hair is clean and healthy and dressed in an attractive fashion. But cool weather formality requires careful grooming, and so the busy woman frequently finds herself busy trying to keep her hair coiffured properly in addition to obtaining the usual cleanliness that is necessary.

This is particularly true in cases of undue oiliness of hair which necessitates shampooing twice or even three times each week if the hair is to be kept in a clean state. But by the use of a reliable dry shampoo the only condition is prevented from making its appearance so often and it is still possible to retain the trim outlines of one's wave.

A Simple Dry Shampoo The particular dry shampoo I want to tell you about today is made of white egg and salt, and is for use on blonde hair only as the white of egg will leave a noticeable residue on dark shades of hair unless brushing is followed more assiduously than most of us are equal to, especially when we are trying to save time.

To the whites of two eggs add one-half (1/2) teaspoonful of salt and beat the mixture until it is stiff. Rub this through the hair and allow it to remain on until dry. A light brushing will remove sufficient of the white of egg and salt to make blonde hair seem free of any preparation and it will be soft and fluffy at the end of the brushing.

Now about how to save the all-important wave. It certainly isn't any fun to shampoo a perfectly good wave out of the hair just because it has become too oily to appear well kept. Yet that is what the average woman who has an unusually oily hair condition has to do.

If your wave is still in good condition put a comb in the white of egg and salt preparation and then run the comb lightly through the hair, pushing up the wave each time the comb passes through, so that you don't lose the outline of the waves. Keep dipping the comb in the white of egg, running it

through the hair and pushing the wave until the entire hair has been treated and all of the white of egg has been used.

Retaining the Wave Pin the waves in place with visible hairpins, adjust a net so that the hair won't become arranged during the drying process. Be sure that the hair is completely dry before removing the pins. Brushing out the preparation, the outline of the waves will be retained. The white of egg forms a crust over the hair and so acts like any waving fluid, but cleansing properties which on waving fluids do not have, too, the addition of the splendid to help overcome its condition and so remedial qualities are found in the white of egg shampoo as well as those that do with cleanliness and beauty.

When you are convinced the hair is dry, remove the net and simply brush the hair roughly but lightly. The white egg will flake off the hair, is soft and fluffy as well as in its natural state.

Of course, this shampoo must be used on medium-dark shade hair but, as I said before, complete brushing is required to remove all traces of the white. On darker shades of hair the bit of the preparation left on hair gives it a peculiar gray cast that is most unattractive. This same slight residue of blonde hair is not noticeable.

Essentially, all the trouble man's life is due to his unhappiness—except sickness; a good deal of that, is.

Hemorrhoids  
All Pile Agony Ended  
Without Cutting or  
Money Back

Piles are caused by congested blood in the lower bowel. Our internal medicine can remove cause. That's why salves and ointments fail. HEM-ROID, the prescription of Dr. J. S. Leonard, removes the cause and strengthens the parts.

HEM-ROID is now sold by druggists everywhere, and has such a record of success, even chronic and stubborn cases that they can't resist every bottle of HEM-ROID and get their money back if it does not cure their misery.—Adv.

## The Hood in Felt

One of the most practical fashions for the schoolgirl that has appeared for a long, long time is the new hood of felt, that is to be arranged and draped after it is upon the head. There are four or five entirely different ways of doing this, so that with a little effort one can have a different hat for every day of the week.

## SPORTS

**WHIPPETS TO BATTLE GALLON IN LEADING GAME OF SCHEDULE**

BY BOB KIRKPATRICK  
Sports Editor, The Star

IN witnessing the play of the Harding High grid squad thus far this year one cannot help but be impressed by one fact, if everything else either done or not done escapes the attention. That is the inability of the local team to take advantage of the breaks. In three games of the four already played Harding has thrown away one scoring opportunity after another. Most of these have been by mistakes in play, some obviously of their own making while others perhaps could not be placed in that category.

On two particular occasions this season the local team has missed up chances to cross the opponents' goal line by taking up signals in the backfield. One of these, and the one that was easily the most costly was in the Ashland game Saturday. After battering the Ashland line into submission and taking the ball on about the 10 yard line of the visiting team the local backfield bawled up the play with the result that the ball carrier was thrown for a loss and Harding lost the ball on downs. We're hounding Harding but see no particular reason why the team members should not know every signal so perfectly that they need never make a mistake.

The shift in lineup that Boyer made in the Harding High game prior to the Ashland fray seems to have benefited the game to no little extent. That is except when the team is within scoring distance, Houseworth hit the line harder than any back has for the locals this season even though he could not dent the Ashland defense when the goal line was in sight. It is probable that Houseworth will remain at the backfield post in place of guard where he played the first of the year. Evans has taken his place at the right guard post and is turning in a creditable performance.

As for Houseworth, Marion does not have the outstanding stars in the Ashland game that it has had in earlier games of the year. The team played nearer as a unit than at any time.

For Charles McKinley of Mansfield, kicking a football means just one accomplishment after another. A week ago in the game with Bucyrus he broke a scoreless tie with a beautiful kick from placement of 42 yards. The goal, although Mansfield subsequently scored a touchdown, would have been enough to defeat Bucyrus.

Not satisfied with demonstrating his ability to boot the ball between the uprights McKinley has taken to punting to display his kicking prowess. Standing on his own 25 yard line in the battle with Gallon Saturday he kicked the ball out of bounds on Gallon's five yard line. There is no college coach that would not be all smiles over a back on his team that could do such a job of punting so what must Mansfield's Coach Murphy be doing when he contemplates how many holes such a kicker can get his team out of during a season of play. He may be smiling but it's a better bet that he is laughing out loud.

# TWO N.C.O. LEAGUE GAMES ON CAR

## WHIPPETS TO BATTLE GALLON IN LEADING GAME OF SCHEDULE

Bucyrus To Meet Ashland in Friday Setto; Harding Plays Findlay.

BY BOB KIRKPATRICK  
Sports Editor, The Star

WHILE Mansfield and Marion were engaging non league foes this week-end the other four members of the N. C. O. league will be battling among themselves for a high position in the league standings. Ashland will entertain Bucyrus on Friday and Shelby will open its league season in a game with the strong Gallon outfit Saturday.

In non league encounters Harding will play host to an invading Findlay eleven Friday while Mansfield will play Kenmore High Saturday on the former's gridiron.

Of the games scheduled for the

### TEAM STANDINGS IN N. C. O. LOOP

	W.	L.	T.	Pct.
Ashland	1	0	0	1000
Mansfield	1	0	1	1000
Gallon	1	0	1	1000
Shelby	0	0	0	—
Bucyrus	0	1	0	000
Harding	0	2	0	000

week-end Shelby and Gallon should put on the best battle although the Bucyrus-Ashland battle game may be even more closely fought.

Couch Chick Young of Shelby has been bringing his team through a fairly tough warming up schedule in fair shape. He has not had his team tested against league competition but is likely that the Whippets will provide a lot of opposition for the top notch Orangemen. As it looks now though the Shelby team hardly figures to defeat the Gallon squad.

Bucyrus-Ashland Even  
Bucyrus and Ashland will enter the game on fairly even terms if Ashland is still minus its star player Reybolt. If Reybolt is in uniform and ready to play the whole game it looks as though the Bucyrus boys would have a lot of difficulty stopping the Ashland team. Reybolt is a triple threat star and his running is a factor to be reckoned with in any game.

Mansfield will be an overwhelming favorite to defeat any thing Kenmore can run onto the field for opposition. Murhey's second stringers will probably get a chance to display their ability in at least part of the game.

Findlay will bring a veteran aggregation to Marion on Friday afternoon and unless the days of miracles is past Harding is due for a very thorough and complete beating. Findlay has lost one game this season, that to Columbus South by a margin of one point while it has been victor on three other occasions. Harding has lost four games in as many starts and has scored just one touchdown so far. If the locals are able to cross the Findlay goal line they will probably have accomplished as much as is expected of them.

### HEROES OF GRID GAMES SATURDAY

By The Associated Press  
Joe Savoldi, Notre Dame—Ripped through Navy's line for three touchdowns.  
Pug Rontner, Northwestern—Intercepted Ohio State pass and scored on touchdown; passed to teammates for two more.  
Johnny Branch, North Carolina—Broke 21-21 tie with Maryland in last quarter, racing 64 yards to touchdown.

Les Hart, Colgate—Smashed through to three touchdowns against Lafayette, one on a 57-yard run.  
Austin Downs, Ga.—Took opening kick-off and ran 51 yards for score against Yale.

Wop Glover, Tulane—Dashed away for two touchdowns against Texas Aggies.

### BRAVES BUY PLAYER

By The Associated Press  
LOS ANGELES, Calif., Oct. 13.—Sale of Wes Schulmerich, hard hitting Angel right fielder, to the Boston Nationals for \$40,000 and one player was announced last night by Oscar Reichow, business manager of the Los Angeles club. Schulmerich, who weighs 215 pounds, has a batting average of .380. He will report to the Boston Braves next spring.

## As Irish Wallop Middies 26-2

Violating the unwritten rule that new stadiums should be dedicated with a defeat by the home team, Notre Dame's 1930 stay-at-homes ran roughshod over the Midshipmen of the U. S. Naval Academy, vanquishing the Middies 26 to 2. The battle was witnessed by a crowd of 50,000 persons. The above photo by the Associated Press shows Lukats of Notre Dame tearing around the Navy end in the second quarter for a long gain.

## B. A. A. Fortunate That Lutherans Are Not in Conference This Season

By The Associated Press  
COLUMBUS, O., Oct. 13.—It is fortunate for the championship hopes of the Buckeye conference teams that they do not have to contend with Wittenberg college for the honor this year.

The Wittenbergers are out of this classic campaign for the first time since the league was formed in 1925, and while it is impossible to say what the result would be if they were in it there is no doubt the Buckeye conference coaches would be losing a lot more sleep than at present.

Wittenberg has another fast, hard-fighting, intelligent team, as usual, and their courageous fight to a 7 to 7 tie against Washington and Jefferson Saturday had the complexion of a national upset.

The five Buckeye teams meanwhile looked none too well. Cincinnati lost to Michigan State 32 to 0, which was no disgrace against a team of that caliber, while Denison booted one to Muskingum Friday night, 25 to 0. Miami, it is true, won from Kentucky Wesleyan 20 to 0, but Ohio Wesleyan barely got away from Dayton with a 7 to 6 victory, and Ohio university was tied by West Liberty Normal at 13 points.

### Buckeyes Busy

The Buckeye swings into action next week-end. Miami plays at Denison Friday while Ohio Wesleyan goes to Cincinnati Saturday.

## HARVARD TO BATTLE ARMY ON SATURDAY

Cadets To Attempt To Avenge 20-20 Tie of Last Season.

By The Associated Press  
NEW YORK, Oct. 13.—With a 20-20 tie from last year to decide, Harvard and Army meet at Harvard stadium next Saturday for the leading fixture on the all-east football program.

Yale, upset by Georgia, will try to regain its prestige by downing Brown, which overturned Princeton, while Princeton hopes to avenge last year's defeat by defeating a still untried Cornell team.

Pittsburgh goes to Syracuse. Dartmouth gets its first real test against Columbia. Georgetown plays Western Maryland.

Fordham and Boston college open this week's action with their annual Columbus day clash today.

For next Saturday's games a number of teams leave home.

Carnegie Tech, fresh from a triumph over Georgia Tech, goes to South Bend, Ind., to play Notre Dame's 1930 stay-at-homes, who gave Navy a sound trouncing Saturday.

Pennsylvania, still untested against a strong team, plays Wisconsin at Madison. Colgate, the east's high-scoring team, journeys to East Lansing to tackle Michigan State. On Friday night West Virginia plays Detroit.

New York university and Missouri provide the leading intercollegiate offering in the east.

### Dave McKay Victor in Tri-State Tourney

By The Associated Press  
READING, Pa., Oct. 13.—Beating a field of 40 professionals from West Virginia, Pennsylvania and Ohio, Dave McKay of Pittsburgh won the tri-state individual golf tournament here yesterday with a score of 67.  
P. O. Hart of Marietta and C. Welchman of Portsmouth, O., tied for runner-up honors with 69's, and Al Aleroff, Youngstown, and Leo Shea, Wheeling, were next with 70's.

## Game Highlights in College Sked

By International News Service  
BERKELEY, Cal.—Three quarters of furious football failed to dampen the ardor of Rusty Gill, California fullback, and Harry Ebling, St. Mary's end. In the fourth quarter they swapped punches with each other and were banished from the game.

NEW HAVEN—Austin Downs, Georgia quarter, took the ball from the first kickoff and ran 60 yards for a touchdown to start the Georgians on their 18-to-14 upset of Yale.

HAMILTON, N. Y.—Captain Hart of Colgate scooped up a punt and whirled 57 yards for a touchdown to aid in Lafayette's 41-to-0 downfall.

SYRACUSE, N. Y.—Halfback Stevens dashed 80 yards to score a touchdown for Syracuse in the Orange routing of Rutgers, 27 to 0.

NOTRE DAME, Ind.—Officials and sports writers lost count of the Notre Dame substitutions made by Knute Rockne in defeating the Navy 26 to 2 Saturday. Some estimated that fully 15 complete teams were hurled in the fray.

COLUMBUS, O.—Brideweser, star halfback of Capital university's football team, scooped up a blocked punt and ran 72 yards through the entire Marietta eleven early in the second quarter of the game Saturday, after Capital had held the pioneers for downs on the yard-line.

Capital won, 14-6.

XENIA, O.—Wilberforce university smothered North Carolina state under almost the identical score by which the locals defeated the southerners last year. Saturday's score was 39 to 0. The 1929 game ended 40 to 0.

CAMBRIDGE—Although he never carried a ball all last season, Barry Wood, Harvard back, proved a capable forward passer, punter and open-field runner, aiding in Harvard's 27 to 0 battering of Springfield.

READING, Pa.—Halfback Haines plunged over from the one-yard line with only three seconds to play to score the winning touchdown that enabled Albright to lower away Mount St. Mary 12 to 7.

## THREE TEAMS STAND OUT AS CONTENDERS FOR BIG TEN TITLE

Wisconsin, Northwestern and Michigan Loom Strong; Minnesota Dark Horse.

BY GEORGE C. GALLATI,  
International News Service Sports Writer

CHICAGO, Oct. 13.—Recovered somewhat from Saturday's gridiron upsets, the middle west today found time to glance at the western conference percentage column, there to read in black and white what the 1930 order of things is apt to be.

Three fighting elevens, Wisconsin, Northwestern and Michigan, stood at the column's head after the smoke had cleared away Saturday afternoon. The honor of whipping Purdue, 1929 Big Ten champion, went to the mighty Michigan warriors. The 14 to 13 victory came as a complete upset.

Notre Dame, using an avalanche of shock troops, irregulars and what not, sent the Navy back east with the narrow end of a 26 to 2 score.

The second major Big Ten reverse was furnished by the Minnesota eleven. Counted on to baptize before the Leland Stanford steamroller from the Pacific coast, the scrapping Gopher team fought the California eleven to a standstill, emerging with a 0 to 0 tie that was regarded as no less than a complete victory in the two cities.

Badgers Whip Maroon  
Wisconsin and Northwestern broadcast the word that they are potential topnotchers. Wisconsin whipping Chicago 34 to 0 and Northwestern, minus two of its star back, trouncing Ohio State 19 to 2.

Three conference elevens, Minnesota, Illinois and Iowa, are as yet untitled in Big Ten fire this year. Illinois Saturday won from Butler, 27 to 0 and Iowa gave way to Centenary, 19 to 12. Minnesota's "moral victory" stamped the Gophers as a real championship threat.

That much havoc is to be spread up and down the land this fall by the Notre Dame ramblers was evidenced in the manner in which Knute Rockne's innumerable teams dealt with the navy. The Irish romped through and around the midshipmen, scoring with regulars and irregulars as well to baptize their new stadium in fitting fashion.

Northwestern takes on its second conference test Saturday at Illinois. Wisconsin faces a real test of its power against Pennsylvania, and Michigan goes up against Ohio State in a contest that is a tossup.

Rockne Ramblers Meet Real Test in Carnegie

By The Associated Press  
CHICAGO, Oct. 13.—The heat was on at Notre Dame today as Knute Rockne started polishing for the make or break spot in his suicide schedule—the Carnegie Tech game Saturday.

With 10 tough games as well as the dedication of a new stadium to figure on, Rockne has coasted until this week, taking Southern Methodist and Navy in stride. But Carnegie Tech is something else again.

Assistant Coach Jack Chevigny scouted Carnegie last Saturday when Georgia Tech was crushed 31 to 0, and reported to Rockne that Coach Walter Steffen has a physically perfect squad and the most varied offense he had ever seen.

And Chevigny played on some good Notre Dame teams. All the Notre Dame cripples, fullback Larry Mullins, and regular tackles Dick Donaghy and Frank Leahy, were ready for duty today and Rockne ordered full speed ahead.

There should be plenty of fireworks in the Big Ten. Michigan's Wolverines, looking more robust than at any time since 1927, in its inspired 14 to 13 triumph over Purdue, last Saturday, will play at Ohio State, while Northwestern will meet Illinois at Urbana, and Indiana invades Minnesota. The intersectional complexion will be provided by the east and south. Pennsylvania will play Wisconsin at Madison, while old man Stagg's Chicago eleven will be host to Charlie Bachman's Florida Gators.

Purdue Meets Iowa  
Purdue, the defending Big Ten champion, will go to Iowa City to give the Iowa folks their lone look at a conference game.

Fortified by its somewhat unexpected victory over Purdue, Michigan will be plenty tough for Ohio State.

Three New Clubs Join with Pro Cage Loop

By The Associated Press  
CANTON, O., Oct. 13.—Three new clubs have been taken into the re-organized National professional basketball league.

Akron, Cincinnati and Wheeling, W. Va., were awarded franchises at a meeting here yesterday, replacing Toledo, Detroit and Pontiac, Mich. The holdover members are Canton, Dayton and Columbus.

Toledo last year's champion, has joined the western section of the re-organized American league. The playing season will start early in December.

## INJURY JINX PURSUES STAR OF WILDCAT F

Hank Bruder Out Until with Mild Case Smallpox.

By The Associated Press  
EVANSTON, Ill., Oct. 13.—Hank Bruder, Northwestern's captain is hunting for a more potent than number jinx chaser.

Bruder whose latest plea is a mild case of smallpox, wore number 13 on his jersey last fall. He kept him off the gridiron most of the 1928 and 1929 seasons. Number 13 worked again last fall when Bruder was having smallpox.

The wildcat halfback's three games in 1928 before injury sent him to the hospital. Last fall he started leading his team to a 7 to 0 over Wisconsin, only to suffer a fracture near the end of the game.

About 300 members of the Northwestern squad, of brothers, classmates and of the athletic department, mingled the past week, to nursing vaccinations, and that they would not "take" previously been inoculated.

Bruder's case was described as mild, and it is expected he will be in uniform in time to play Minnesota November 1.

Argentine Battler T Meet Louis (Kid) I

By The Associated Press  
NEW YORK, Oct. 13.—Suarez, sensational Argentine weight, meets heavy 1 Louis (Kid) Kaplan, of Conn., in the feature bout, son Square Garden's Friday card.

Suarez, campaigning for at the lightweight title, is a dangerous foe in Kaplan, who held the featherweight championship.

Al Singer, lightweight contender, travels west to meet Eddie Denver, on a non-title bout, cago stadium tomorrow.

Mickey Walker, middleweight, takes on Johnny Cline of Calif., in a 10-rounder at 5 but his crown will not be at risk.

FIRES AT MINIMUM  
IN PREVENTION WEEK

Only One Blaze, Doing \$5  
Damage, Reported for Per-  
iod Ending Saturday.

Marionites held fires  
to minimum here during fire pre-  
vention week, their responsibility  
ended with the week.  
fire, doing \$5 damage,  
reported during fire preven-  
tion week but just as soon as the  
week ended Saturday, fires  
again drew the attention of city fire-

The record of one small fire for  
the week is commendable, and is  
better than corresponding  
weeks in previous years, according  
to Fire Chief T. J. McFarland.

The two fires reported over the  
week did but little damage. At  
11 a. m. Sunday, firemen in the  
fire car went to the S. W. Spade  
residence at Oak and Fairground  
streets and extinguished a fire that  
began in a cushion and the top  
of the car. Damage was estimated  
at \$5.

Early last night, a match or  
candle thrown from a second  
floor window caused an awning  
fire at the S. G. Romoser residence  
at 22 East Center street. Fire-  
men in the chief's car extinguished  
the fire after \$25 damage had  
been done.

N. Y. MARKETS  
CLOSED TODAY

By The Associated Press  
NEW YORK, Oct. 13.—  
Financial activities were at a  
standstill today in Wall Street  
in observance of Columbus  
day.

All of the security and com-  
modity exchanges and the  
banks were closed, follow-  
ing the custom of observing  
the holiday on Monday when  
it falls on Sunday.

## LIVESTOCK

## Chicago

By The Associated Press  
CHICAGO, Oct. 13.—Hogs 39,000  
including 15,000 direct; fairly ac-  
tive; mostly 10 to 15 higher than Sat-  
urday's average; packing sows 15 to  
25c up; bulk 150-300 lbs. 9.50 to 9.75;  
top 9.85; packing sows 7.75 to 8.50;  
few to 9.00. Light light, good and  
choice 140-160 lbs. 9.15 to 9.60; light  
160-200 lbs. 9.35 to 9.75; medium  
weights 200-250 lbs. 9.55 to 9.85;  
heavyweight 250-350 lbs. 9.50 to 9.85;  
packing sows, medium and good,  
275-500 lbs. 7.50 to 9.00; slaughter pigs,  
good and choice 100-130 lbs. 8.50 to  
9.35.

Cattle, 21,000; calves 2,500; general  
market very slow; early trade  
on steers confined to medium  
weights and weighty bullocks going  
on shipper account at steady prices;  
big packers bidding lower;  
best weight steers early 12.1; yearlings  
held around 12; other classes  
mostly stockers and feeders active.

Slaughter cattle and vealers;  
steers, good and choice 6.00-9.00 lbs.  
11 to 13.25; 9.00-11.00 lbs. 10.25 to 13.25;  
10.00-13.00 lbs. 9.75 to 12.50; 13.00-15.00  
lbs. 9.25 to 12.25; common and medium  
6.00-12.00 lbs. 6.25 to 10.25; heifers,  
good and choice 5.50-8.50 lbs. 10  
to 12.75; common and medium 4 to 5.25;  
low cutter and cutter 3 to 4; (bulls,  
yearlings excluded) good and  
choice beef 5.75 to 6.75; cutter to medium  
4 to 6; vealers (milk fed) good and  
choice 10.50 to 13; medium 8 to  
10.50; cull and common 7 to 8; stock-  
er and feeder cattle; steers, good  
and choice 5.00-10.50 lbs. 7.25 to 9;  
common and medium 5.25 to 7.25.

Sheep 45,000; 25 to 50 lower; some  
fat lambs off market; natives mostly  
7.50 to 8; few 8.25; bucks 6.50 to 7.25;  
range lambs 7.50 to 8; best held higher;  
choice feeders held above 7.00;  
lambs 80 lbs. down, good choice  
7.50 to 8.50; medium 6 to 7.50;  
all weights common 4.50 to 6; ewes 90-  
150 lbs., medium to choice 2 to 3.75;  
all weights, cull and common 1 to  
2.50; feeding lambs 60-75 lbs., good  
choice 6.50 to 7.25.

## East Buffalo

By The Associated Press  
EAST BUFFALO, N. Y., Oct. 13.—  
Hogs, 8,000; holdovers 200; active  
to all interests; steady to 10 lower;  
bulk desirable 160-220 lbs. 10.25;  
few 10.35; below 140 lbs. mostly  
10.00; packing sows 8.00 to 8.50.

Cattle, 2,200; strictly dry fed  
steers and yearlings scarce, steady;  
lower grades drags, 25 or more  
lower; choice steers, 1.20 to 1.40  
12.05; good steers and yearlings  
11.50 to 12.25; fleshy grassers and  
short feds 7.25 to 8.50; common  
steers and heifers 5.00 to 6.50; beef  
cows 5.00 to 5.75; cutter grades 2.50  
to 4.00.

Calves, 1,300; vealers fully 60  
lower; choice 13.00 to 13.50.  
Sheep 10,800; lambs rather slow,  
generally 50 to 75 lower; goats to  
choice ewes and wether lambs 7.75,  
mostly 8.00; bucks and in-between  
grades 7.00; throwouts 6.00; fat  
ewes 3.50 to 4.00.

## Pittsburgh

By The Associated Press  
PITTSBURGH, Oct. 13.—Hogs,  
3,000; mostly steady to strong; 170-  
200 lbs. 10.25 to 10.40; 140-170 lbs.  
10.00 to 10.25; desirable pigs 8.50 to  
9.75; desirable packing sows 8.50 to  
8.75.

Cattle, 1,600; beef steers 25 to 50  
lower; medium to good 7.00 to 8.60;  
common grades 5.50 to 6.50.  
Calves, 850; mostly 50 lower; good  
and choice vealers 10.00 to 13.00.  
Sheep, 5,000; around 50 lower;  
desirable fat lambs 7.75 to 8.00.

## Cleveland

By The Associated Press  
CLEVELAND, Oct. 13.—Hogs,  
3,300; holdover none; steady, 160-180  
lbs. 9.85; 180-250 lbs. 10.10 to 10.25 ac-  
cording to weight and sort. Pigs  
downward to 9.50; rough sows 9.75;  
stags 5.75.

Cattle, 1,400; interest centering on  
6.50 to 8.50; common steers and scat-  
tering good to choice yearlings  
around 11.25 to 12.75; about steady.  
Continuing dull on numerous  
trashy kinds valued at 6 downward  
on weights over 1,000 lbs. Cows  
and bulls unchanged. Calves, 1,000;  
steady, plain quality and sorts, 14 to  
14.50; 10 to 12.50 kinds, also culls at  
8 to 10; unusually numerous.

Sheep, 6,300; early lambs, sales  
8.50 downward, 2.50 under Friday  
but later bids sharply lower, 8.00  
and less; lower grade particularly  
sluggish.

## LIVES "RIGHT" TO WIN ESTATE

Vincent Kerens, 54, Chicago and Dallas broker, will receive his share of the \$1,900,000 estate of his father, Richard C. Kerens, former ambassador to Austria-Hungary. Mr. Kerens, a war-time flier, under the will was admonished to live a sober life for five consecutive years. He commutes between Chicago and Dallas in an airplane. His business has to do principally with the sale of Texas lands. Pictured with Mr. Kerens is his wife, Mary.

## Today in Marion Markets

Groceries, Produce, Meats, Grain, Livestock

Demise of fresh peaches this season  
is not many weeks distant. The  
peach crop is virtually "on its last  
legs" and the supply is growing  
more scarce each day.

Arrival Saturday of Solway  
peaches from New York was a sure  
sign that the season is nearly over.  
The Solway peaches as a rule are  
not a desirable variety, but their  
availability late in the season  
makes them marketable here. The  
price is four pounds for 25 cents.

Within the next two weeks, all  
popular varieties of peaches will  
be off the market, grocers predict.  
The Ohio peach season was termi-  
nated several weeks ago, and the  
city has since been drawing its  
supply from New York state.

## Vegetables

White Irish Cobbler, 40 to 50c pk.  
Sweet Potatoes, 4 and 5 lbs. 25c  
New Cabbage, 30c  
New Carrots, 50 to 10c bunch  
New Beets, 5c lb.

## MOTHER HELPS SONS TO FAME

MRS. LA FOLLETTE IMPORTANT FACTOR IN FAMILY SUCCESS

By The Associated Press  
MADISON, Wis.—Belle Case La  
Follette has pointed the way  
of political success to her second  
son as she did for his elder brother  
and their father.

The judgment and wisdom of  
the widow of Robert M. La Fol-  
lette, the senior, is credited with  
importance in the Republican pri-  
mary campaign which started  
Philip F. La Follette on the path-  
way to the Wisconsin govern-  
orship.

Mrs. La Follette's husband called  
her his "counselor" and freely ad-  
mitted the aid her faith and fore-  
sight gave.

## He Even Score

Philip, 33, defeated Gov. Walter  
J. Kohler in the primary. Two  
years ago Kohler attained promi-  
nence by splitting the La Follette  
delegation to the national conven-  
tion, and then defeating the pro-  
gressive candidate for the govern-  
orship.

The elder son, appointed to fill  
the unexpired term of his father  
when he died, in 1925, was elected  
to the office two years later. He  
now is 35. Mrs. La Follette was  
urged to seek the office her hus-  
band left but she preferred to see  
Robert M. Jr. occupy it.

College Sweethearts

Mrs. La Follette and her hus-  
band were sweethearts at the Uni-  
versity of Wisconsin in the early  
90's. Both were graduated from the  
law school, she the first woman  
in the state. She was an ad-  
vocate in all his political campaigns,  
for district attorneyship of Dane  
county, for congress, for governor,  
for the senate and finally for the  
presidency in 1924.

There is much like both mother

Belle Case La Follette, widow of the famous senator, has been a big factor in her family's political history, even now aiding her sons, Robert, Jr. (left), and Philip.

and father in the two sons. Robert ing line. Bob returned the aid in  
M. resembles the father. He is a  
strategist. Philip, resembling the  
mother, is a politician of the old  
school, an orator with magnetism  
and personality. He remembers  
names, he gives his hearers a  
"home" feeling.

"You're a chip off the old  
block," one admirer remarked.

"No, just a splinter," he came  
back.

## Vigorous Campaign

Philip is tall; he weighs but 130  
pounds, but during the rigorous  
primary campaign he traveled  
thousands of miles and made six or  
seven speeches a day.

He has his father's habit of tip-  
pling off his coat and collar during  
a speech. "Reactionaries" and "spe-  
cial interests" punctuate his lan-  
guage as they did that of "Fighting  
Bob."

His hair is the same unmanag-  
able plume. The father ran his  
fingers through it; so does the son.

Philip was Dane county attorney  
as was his father. However, he  
is elected governor in November  
he will reach an office at 33 that  
his father did not attain until he  
was 45. The elder La Follette was  
in the house of representatives  
from 1885 to 1901, before serving as  
governor from 1900 to 1909.

## Family Cooperations

The La Follette clan is a friendly  
one. When Robert M. senior, ran  
for the presidency as an independ-  
ent in 1924 both the boys stumped  
for him. During the junior Bob's  
campaign, Philip was on the fight-

South Pole Trip Lark  
to Member of Crew

By International News Service  
DENVER—Life at the South  
Pole with Commander Richard  
Byrd didn't seem much different  
from ordinary life, blond and boy-  
ish Frank Mitchell Paape, New  
Zealand, who shipped under Byrd  
as an ordinary seaman, said while  
in Denver recently Paape was the  
youngest member of the famous  
expedition that founded Little  
America.

Paape was in Denver on a tour  
of the United States studying the  
hotel system of this country. His  
father, Arthur Paape, is a hotel  
owner in New Zealand.

"We all worked hard," Paape  
said when asked about life in the  
Antarctic. "There was always  
something to do. Everybody liked  
Byrd and there wasn't much friction."

## TOWN GOES "WILD WEST"

By United Press  
DEADWOOD, S. D.—Roulette,  
Pino and other gambling games  
were a part of the recent "Days of  
'36," celebration here when the  
town's nine population grew whis-  
kers and went wild west. All gam-  
bling layouts, however, were for at-  
mosphere. Judge C. E. McHugh in  
police court this week fined Morris  
Ventling, a concession worker dur-  
ing the celebration \$25 and costs  
for "playing for keeps."

You Break It; We Fix It. Marion

Deceased.

## Gooseberries Are Popular With Many Women in Planning Dessert

MANY persons who are fond of desserts nevertheless prefer that they be not overly sweet. Gooseberries find a warm welcome among them, for this pungent fruit gives a most refreshing tang to any kind of pie or pudding.

Gooseberry tart or pie—gooseberry pudding—with a cornmeal, rice or tapioca base—or as an accompaniment to hot or cold meat. All flavorful and snappy.

Gooseberries should be fully ripe before use, and ripeness is easily judged. The color is more yellowish than green, the fruit is firm and well-rounded. And the berries are best if large. Years ago we took it for granted that gooseberries were little bits of bulbs, not much bigger than a currant, and mostly skinned and bitter. But there has been a considerable improvement in their culture. The gooseberries now on the market are more nearly the size of cherries, and there is a great deal of pulp, rather than tough skin.

Remove both stem and blossom end and wash. (And the larger the berries, the more quickly can a quart or a pound be prepared.)

**Gooseberry Sauce**  
2 cups of gooseberries  
2 cups sugar  
1 cup boiling water.

Sugar and water should be boiled together for five minutes. Place gooseberries in enamel saucepan, pour over the syrup, and cook over a low flame until the berries are tender. But not too long—or the fruit will crack. The fruit will remain whole if simmered slowly.

Gooseberries can be used as filling for tarts or pies. Stew the fruit with sugar and water, as for sauce, before placing in the pie crust. Instead of a round top crust, cover with narrow strips, lattice-work fashion.

As for cold cereal pudding. Add 1 cupful of cooked gooseberries for each cupful of cooked tapioca, or cornstarch, or rice, or farina while still hot. Then set aside to cool. Serve plain or with whipped cream.

Gooseberries make marvelous jam, easy to prepare. Simmer equal quantities of fruit and sugar, pound for pound, measuring after the berries are cleaned, and stems removed. After one hour of slow cooking, remove from the fire and pack in sterilized jars. Let cool, then seal with paraffin.

In a Norfolk village most of the green peas are grown from a stock of seed said to be 2,400 years old. They were discovered in the case of an Egyptian mummy.

## LEADS LABORITES

Miss Sue Lawrence, parliamentary secretary in the ministry of health, has been entrusted with the ticklish task of steering this year's conference of the British Labor party through troubled waters. She was one of the keynotes of the new platform by charging that the house of lords has been obstructing the work of Premier MacDonald.

Can't you stop eating so much? Well, then, get fat!

## Clean Utensils Essential for Coffee Making

FIRST make sure that the utensil used is absolutely immaculate.

So goes the first rule for making good tea or coffee. Both of these beverages have a tendency to leave slight odors and stains. And the ordinary rapid cleansing which is sufficient for most cooking utensils may not be enough. With the result that there is likely to be a faint, stale flavor in freshly made coffee, and nobody can understand why.

After each use the tea urn or the coffee percolator, or whatever utensil is used for the purpose, should be given a thorough scouring inside with some fine cleanser. No tan or yellowish stains should be allowed to remain. After the cleansing a scalding with hot water and a rinsing with cold is advisable. Leaving the top open when not in use also helps to air it.

Occasionally a special bath will do it good. Place one tablespoonful of bicarbonate of soda in the tea or coffee pot, add water almost to the top and boil for ten minutes. Then rinse with hot water and several cold water baths. Borax may be used in place of bicarbonate of soda. Salt—about half a cupful to a quart of water—is also a drastic cleanser.

Earthenware, china or glass or

fireproof material are all preferable to metal for coffee and tea making. Both these beverages absorb odors easily, and sometimes one can detect a faint metallic flavor in coffee or tea brewed in metal utensils. In addition, these containers are easier to keep clean—they show stains readily, thus forcing on the housekeeper's attention the need for prompt cleansing!

## Brilliance of Prodigy Puzzles School Heads

By International News Service  
PARIS.—Mademoiselle Marguerite Bonnard, girl prodigy of the University of Lyons, is giving the authorities a little trouble because of her brilliant head. She has just passed the university examinations for grammar teachers with the highest marks the first time that any girl or any one as young as twenty years has ever achieved this.

Mademoiselle is still a minor according to French laws and should not be given a teaching position for which she is undoubtedly well-fitted. She won her degree of master of letters at the age of 18 and diploma of superior aptitude at 19.

Windows or mirrors that have been flicked with paint are more easily washed if a little vinegar is added to the water.

Remember this: Among men, only young and shapely men look well in a bathing suit.

In addition to a delightful surprise program you will be privileged to hear—

# THE NEW VICTOR RADIO-ELECTROLA

Below, Two of the New Models Are Described and Illustrated

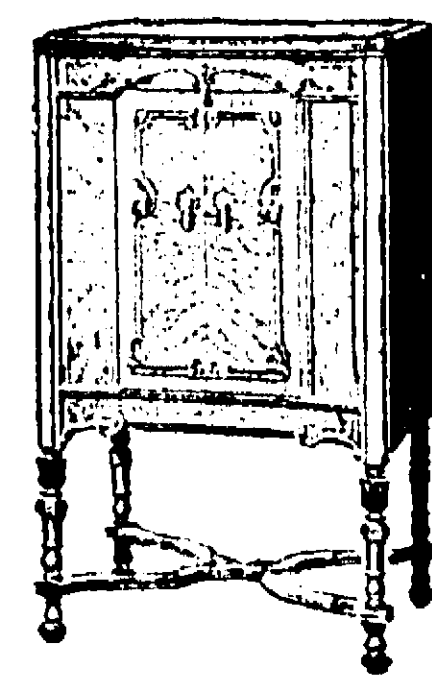

## Victor Radio-Electrola

WITH HOME RECORDING, RE-57

The first and only complete musical instrument for entertainment in the home. Three instruments in one—Victor Radio, Victor Electrola and Victor Home Recording. Vastly perfected tone arm reproduces recorded music with utterly new fidelity and beauty. Home Recording device makes permanent records of whom and what you choose. Cabinet of classical Italian pattern, walnut-veneered, 46 inches high, 27½ inches wide, 18¼ inches deep. Front of carefully selected oriental woods. Doors beautifully paneled and fitted with exquisitely wrought brass handles. List Price, \$285.00, less Radiotrons.

## Victor Radio, R-39

Identical with the R-35 in engineering principle—and, like that famous model, a product of Victor skill, of Victor acoustical experience and the art of Victor cabinetry. Thoroughly tested in every "trouble zone" in radio America. Backed by unlimited guarantees of excellence. Endorsed by noted artists of all the world. Eight Tube, Screen Grid Chassis. Cabinet measures 43 3/8 inches high, 27 inches wide and 16 7/8 inches deep. Modern adaptation of the classical Italian. Finished in walnut except for doors which are paneled in butt walnut. Brass handles in harmony with period. List Price, \$185.00, less Radiotrons.

# NEAR PERFECTION IN JELLIES IS POSSIBLE

**Favorite Fruits May Be Used Without Guess or Waste.**

Housekeeper of today no longer struggles with uncertainties in jelly making. All fruits—fully ripened—can be made into guesswork or waste, the same perfect recipe can make jams and any kind of fruit at the year. For after each work, a way has been found to extract the pectin naturally rich in it, concentrate this pectin that is in liquid or powder form, ready for use.

**All Fruits Suitable**

Apples, raspberries, blackberries, pears, peaches, plums, etc.—in fact, any fruit we grow or buy—can be made into tender full-flavored jellies, by using this new product. Hazardous guesswork has been transformed into a safe, pleasant pleasure. Almost every fruit now carries a super-concentrated pectin. Very detailed instructions for using pectin in making all jams and jellies are given with each purchase. We cannot urge you enough to follow these directions, but change if you wish. The result is perfect.

Washing jelly glasses and jars wash them in clean water and rinse in hot water. Then cover with warm water to the boiling point for 10 minutes.

**"Boiling" Unavoidable**

Boiling out of the liquid in a natural process which is controlled to some extent by the pectin. This "boiling" is a perfect process. It is this boiling which collects between the fruit and the pectin. But if the pectin is imperfect, or the liquid is drawn by evaporation and gathers on top of the pectin. If, in filling the glasses, the pectin is completely covered the top of the glass, if there are extreme variations in the temperature in the storage, or if the glasses are not in handling, the seal of the glass and the pectin may be broken, and "weeping" result.

**LET'S EAT IN U. S.**

Foreign-made of whole meat, ground grasshoppers, spinach and crickets, were served at dinner given in Paris.

Many think that all that is necessary to do good is to spend money liberally.

# "Paper Cookery" Holds Flavor of Food and Lessens Labor

EATING raw vegetables and possible the cooking of two or three or even more foods in one large saucepan. Whatever areas or vegetables are to be prepared are tied up in separate paper parcels, then placed together in one large pot. Each cooks by itself, and there is no communication of odor or flavor as the packages are tightly tied. Moreover, the pot itself remains untouched by the food cooked in it.

So much for the saving of labor. In addition this new method has the advantage of preserving flavor and juices to full. So much even-uates in ordinary cooking.

The method of use is easy, too. The paper sheet is slightly moistened, then the food spread on it, and sprinkled with whatever shortening it requires. The four corners of the sheet are then tied together firmly, leaving some room for expansion, but no space for escape of steam. Then the paper cooker is placed in any saucepan containing a small amount of boiling water. This water does not soak through and dissolve the juices of the food, as the cookery paper is especially processed to resist it.

With all the bareheadedness, the college mortarboard is not discarded.

## Turoff's Mayonnaise and Thousand Island Dressing

Chosen by Mrs. Emily M. Lautz for Use and Demonstration in the Marion Star

Add some of our Mayonnaise or Thousand Island dressing to your favorite salad and we believe you will note an added pleasure.

Take Home a Jar Today—8 oz. size 40c

## TUROFF BROTHERS

RESTAURATEURS

# MAKING JELLY "JELL"

Jelly that doesn't "jell" is a common kitchen tragedy. If the jelly refuses to thicken, place a grated carrot in a clean piece of cheese-cloth and strain a few drops into the jelly pan. Then place on the fire and boil a few seconds longer. And if the syrup is consistently stubborn and refuses to harden after having been placed in the glasses, place them in a dripping pan half full of cold water, then cook in the oven until done.

A Danish agriculturist has invented a way of preserving milk in sheet form, like tissue paper. The discovery is said to be of the greatest importance to agriculture.

## HOUSEWARE HARVEST SALE!

## FLOOD THREAT ALARMS CITY

Brady, Texas, Citizens Prepare for Second Deluge Within Week.

By The Associated Press  
BRADY, Tex., Oct. 13.—For the second time within a week this West Texas city was threatened today by the roaring flood waters of the Brady river which began rising rapidly after torrential rains along its watershed.

Already high after a flood which last week inundated a portion of the business section and inflicted thousands of dollars damage, the river began rising rapidly early today at the rate of 18 inches every hour.

The whole town was alarmed and began preparations to protect lives and property. Telephone operators notified all available people that a flood was coming.

Within a short time, in early morning hours, the business section was thronged with frightened men, women and children, all fearful that a repetition of the previous near disaster was at hand.

Merchants hastily opened their stores, removed merchandise from first floors to upper ones, and barricaded against the anticipated water.

Already high after a flood which last week inundated a portion of the business section and inflicted thousands of dollars damage, the river began rising rapidly early today at the rate of 18 inches every hour.

## TOTAL OF DRY LAW FINES INCREASES

Arrests Fewer in September but Convictions Move Upward.

By The Associated Press  
WASHINGTON, Oct. 13.—A decreasing number of arrests for violations of the dry laws through the months of July, August and September was shown today in the monthly report of the prohibition bureau.

September arrests totaled 4,599 as compared with 5,759 in August and 6,448 in July.

At the same time a huge increase in convictions, fines and jail sentences was reported, due to the federal courts resuming their activities after the summer recess.

Conviction by juries totaled 284 for September as compared with 41 in August and pleas of guilty totaled 3,855 for September as compared with 1,211 in August.

There was a corresponding increase in fines assessed from \$143,451 in August to \$111,214 in September.

Conviction by juries totaled 284 for September as compared with 41 in August and pleas of guilty totaled 3,855 for September as compared with 1,211 in August.

## SHOW SHOPPING

Jeanette McDonald and Jack Buchanan, English Stage Star. Have Leading Roles in "Monte Carlo," Palace's Principal Offering This Week.

BY HALLIE HOUCK  
The finale of Monte Carlo brings up thoughts of gay stories, wine, women and song. Add the phantom "Lubitch touch" and theatergoers are guaranteed another evening of entertainment.

Everyone remembers Jeanette McDonald in "The Love Parade," one of the Lubitch successes. Jack Buchanan, English stage idol plays opposite her. While he is appearing on the talking screen in the United States in his own theater, the Leicester Square theater, is being built in London. Buchanan is to London, via Cleveland, to France and Al Jolson and Eddie Cantor are in America.

In the cast are Zaou Pitts, Tyler Brooke, Claude Allister, Lionel Belmore, John Roche, Albert Conl, Helen Guden, Donald Novis, David Percy and Erik Roy.

The story of Monte Carlo concerns the fortunes of a charming Countess without money who sets her devious for a wealthy Prince.

Joe Brown in "Top Speed" at Ohio  
Several hundred college students were guests at the studio during the filming of the picture. There were college students and graduates on the set during the entire making of the picture in an effort to get the correct details right.

The studio from which it was released says that the show is different for the hero does not score the last-minute touchdown, the football captain does not win the girl. Well, if that's true, the show is different.

Marion Nixon is the feminine interest. Jack Whiting, Guinn Williams, Frank McHugh and Richard Tucker make up the cast.

There is a paradise for a girl whose life has been bonded to the underworld. Well, the gullible and see "Road to Paradise" at the Ohio Friday and Saturday.

The show was suggested by the play "Cornered" by Dodson Mitchell and directed by William Beaudine.

Loretta Young, who recently scored her share of Hollywood publicity by eloping with Grant Withers, Jack Mulhall and Raymond Hatton have the featured roles.

Montgomery in "Lighter Role"  
ROBERT MONTGOMERY, who acted in such a beautiful piece of acting in "The Big House," goes from the deep drama of the prison picture to the lighter realms of "Love in the Rough," tonight and Tuesday at the Marion. Among the cast are Dorothy Jordan, Benny Rubin, J. C. Nugent and Dorothy McHugh.

Dorothy Fields and Jimmy McHugh, popular Broadway song writers, supplied seven new numbers for this picture, including "I'm Learning a Lot From You," "Go Home and Tell Your Mother," "One More Waltz" and "Dance, Fool, Dance." They're the team who wrote "I Can't Give You Anything But Love, Baby."

Golf caddies who play harmonies were set up by the director, Charles Reisner and set into a harmonious band to take with him on location for the show, an adaptation of the stage show, "Spring Fever."

"JUST like a breath of life. It carries with it a tear or two and an occasional smile. It is with-

Canada, has a black eye. It was struck by a golfball when he was playing at Baddeck.

ENGLEWOOD, N. J.—Colonel and Mrs. Lindbergh have purchased an estate near Princeton, five which they will build. There is plenty of room for a flying field. The property comprises 150 acres of farm land.

HANOVER, GERMANY—The municipality is glad to have folks make dates. It rents billboards space at street corners where Fritz can leave a message for Gretchen and the like.

LISBON, PORTUGAL—Felicina Maria De Lus, 90, and wealthy, is a bride. She married Antonio Monteiro Felipe, a medical student and brought him a dowry of \$2,000,000.

CHILD DIES OF BURNS  
By The Associated Press  
HAMILTON, O., Oct. 13.—Falling into burning trash at a city dump Saturday, William Dean, 8, son of Mr. and Mrs. Andrew Dean, sustained burns that resulted in his death yesterday.

BIRTHDAY PARTY HELD  
MEKKER, Oct. 13.—Relatives surprised Mrs. Frank Green on her thirty-fifth birthday Sunday and a cafeteria dinner was enjoyed. She received many gifts.

Several hundred college students were guests at the studio during the filming of the picture. There were college students and graduates on the set during the entire making of the picture in an effort to get the correct details right.

The studio from which it was released says that the show is different for the hero does not score the last-minute touchdown, the football captain does not win the girl. Well, if that's true, the show is different.

Marion Nixon is the feminine interest. Jack Whiting, Guinn Williams, Frank McHugh and Richard Tucker make up the cast.

There is a paradise for a girl whose life has been bonded to the underworld. Well, the gullible and see "Road to Paradise" at the Ohio Friday and Saturday.

The show was suggested by the play "Cornered" by Dodson Mitchell and directed by William Beaudine.

Loretta Young, who recently scored her share of Hollywood publicity by eloping with Grant Withers, Jack Mulhall and Raymond Hatton have the featured roles.

Montgomery in "Lighter Role"  
ROBERT MONTGOMERY, who acted in such a beautiful piece of acting in "The Big House," goes from the deep drama of the prison picture to the lighter realms of "Love in the Rough," tonight and Tuesday at the Marion. Among the cast are Dorothy Jordan, Benny Rubin, J. C. Nugent and Dorothy McHugh.

Dorothy Fields and Jimmy McHugh, popular Broadway song writers, supplied seven new numbers for this picture, including "I'm Learning a Lot From You," "Go Home and Tell Your Mother," "One More Waltz" and "Dance, Fool, Dance." They're the team who wrote "I Can't Give You Anything But Love, Baby."

Golf caddies who play harmonies were set up by the director, Charles Reisner and set into a harmonious band to take with him on location for the show, an adaptation of the stage show, "Spring Fever."

"JUST like a breath of life. It carries with it a tear or two and an occasional smile. It is with-

Canada, has a black eye. It was struck by a golfball when he was playing at Baddeck.

ENGLEWOOD, N. J.—Colonel and Mrs. Lindbergh have purchased an estate near Princeton, five which they will build. There is plenty of room for a flying field. The property comprises 150 acres of farm land.

HANOVER, GERMANY—The municipality is glad to have folks make dates. It rents billboards space at street corners where Fritz can leave a message for Gretchen and the like.

LISBON, PORTUGAL—Felicina Maria De Lus, 90, and wealthy, is a bride. She married Antonio Monteiro Felipe, a medical student and brought him a dowry of \$2,000,000.

## MAJ. CANNON FACES BAD CHECK CHARGE

Son of Bishop Announces He Will Refute Accusations at Los Angeles.

By The Associated Press  
LOS ANGELES, Oct. 13.—While Major Richard M. Cannon, son of Bishop James Cannon Jr., announced at Washington, D. C. last night, he expected to return "promptly to Los Angeles to face and refute any charges which he there," the fire department officials have continued investigation of a blaze in his local offices a week ago.

Major Cannon, who is sought in Los Angeles and San Bernardino counties on warrants charging issues of bad checks in connection with promotion of a boys' school, said the charges would be "answered satisfactorily at the proper time and place."

Investigators of the fire department here said firemen answering a call to Major Cannon's residence found a pile of paper burning in the center of the office, he maintains in his home. The fire had every appearance they said, of being of incendiary origin. Nothing of value was destroyed.

Officials of the El Monte school, in connection with which the records were given, said their records were intact and are being kept in the school office.

ATTACKS TARIFF  
Bulky Invades Opponents Home Town With Democratic Speech

By The Associated Press  
CANTON, O., Oct. 13.—Carrying his campaign into the home town of Senator Roscoe C. McCulloch, his Republican opponent, Robert J. Bulky of Cleveland, Democratic senatorial candidate, last night attacked the Republican tariff acts.

Bulky also chose the home of the late President McKinley to charge the Republican party with deserting the McKinley policy of tariff for protection.

"Those who pretend to be followers of McKinley have reversed his view and are contributing to the destruction of our foreign trade," he asserted in discussing the recent Hawley-Smoot tariff. He said the new tariff act has contributed to the present business depression by causing foreign nations to adopt many retaliatory tariffs to hinder American exports.

WIFE CONFESSES  
Former Motion Picture Actress Admits Shooting Husband.

By The Associated Press  
MARTSVILLE, Calif., Oct. 13.—While L. R. "Red" Shaffer, 31, lay seriously wounded in a hospital here refusing to reveal the identity of the person who shot him, his wife, a former motion picture actress, admitted the shooting, officers said, and declared she was sorry her husband would live.

Shaffer, who formerly played Duncan, film actress of a decade ago, told Sheriff C. J. McCoy she shot her husband yesterday to save herself from being choked to death. Her face, bruised and cut, testified to a terrible beating, McCoy said. She was not arrested.

Shaffer drove 31 miles from his Loma Rica ranch to have his wounds dressed.

CLOUDS BREAK  
Germany Cheerful Over Aid from Banking Syndicate.

By The Associated Press  
BERLIN, Oct. 13.—Advices that an international syndicate headed by American bankers have extended \$125,000,000 credit to Germany was hailed today as a break at last in the clouds which have hung over the Reich's horizon.

The news was interpreted to mean that there is confidence abroad in Germany's solvency and ability of her financial brains. Particularly it is looked upon as approval of the government's recently announced drastic program of economy.

BOWMAN TO SPEAK  
George A. Bowman, superintendent of schools, will address the Davids Street Community club Tuesday at 7:30 p. m. at the school. He will talk on the three mill school levy. Rev. Carl V. Roop, pastor of the United Brethren church, will offer the prayer and benediction and the men's chorus of the church will give a program of music.

## The Stars Say— For Tuesday, Oct. 14

AN element of secrecy, subtlety and subterfuge seems to dominate the affairs of this day, judging by the emphasis of the Neptunian force, both by lunar and mutual operation. This need not necessarily be interpreted as baneful, but accents the advisability of settling matters by diplomacy, secret agreement or possibly intrigue rather than aggressive methods. There may be an undesirable change as well as stubborn frustration to encounter.

Those whose birthday it is are urged to make their plans with a degree of discretion and shrewdness, as their best interests may be furthered by diplomacy, intrigue or secret agreement, rather than by direct action or aggressive enterprise. There may be an unwelcome change and also tenacious obstacles to be surmounted by measures of expediency.

A child born on this day may have a rather eccentric or peculiar disposition, inclined to accomplish its ends by subtle methods or secret agreements. It may incline to and suffer from hypocrisy and misrepresentation. Its career may be one of strange vicissitudes.

SEES NO MENACE IN SOVIET TRADE PLANS

CLEVELAND, O., Oct. 13.—There is no danger of a Soviet program of "commodity dumping" to break world prices, the opinion of Robert J. Austin of Cleveland, international engineer who recently spent two months in Russia.

Austin termed charges that the Soviet government is scheming to wreck markets "a bogey which has no basis in reality."

He said Russia has no more desire to sell on a falling market than any other seller, but the Soviet nation is engaged in a gigantic program of industrialism requiring gold or credit.

Most Americans have been inclined to grant Russia only limited credit, and this has forced the nation to acquire gold by exporting wheat and other available products for what they will bring.

"However, Russia has no great surplus of many commodities, not even that of wheat, for export, and there is no danger she will launch any program of 'dumping' to break world prices," Austin said.

Austin is president of the Austin company, which is building a \$80,000,000 industrial city near Nizhni Novgorod.

HENRY KEHRER, 63, CLAIMED SUDDENLY

Funeral Services for Galion Man Will Be Held Thursday Afternoon.

SPECIAL TO THE STAR  
GALION, Oct. 13.—Henry A. Kehrer 63, of 516 Harding Way, died suddenly Saturday morning after a heart attack.

Mr. Kehrer was born in Whetstone township Oct. 30, 1867, and was the son of Daniel and Lydia (Kester) Kehrer.

Nov. 21, 1921, he was united in marriage to Matilda T. Bench, who survives with two sons, Clinton T. at home and Arthur C. at five brothers Samuel and Reuben of Whetstone, Joseph of Columbus, Jacob, Martel, and William of Bucyrus; and two sisters, Miss Emma Kehrer of Bucyrus and Mrs. S. A. Zimmerman of this city.

Funeral services will be conducted from the home Tuesday afternoon at 2:30 p. m. with Rev. E. R. Elliker officiating. The remains will be placed in the Fairview mausoleum.

## COLDS MAY DEVELOP INTO PNEUMONIA

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal inflamed membranes and stop irritation, while the creosote goes to the stomach, is absorbed into the blood, attacks the seat of the infection and checks the growth of the germ. Creomulsion is guaranteed satisfactory in the treatment of coughs, colds, bronchitis and

# Per Capita Consumption of Food Shows Big Increase in U. S.

## YEARLY TOTAL UP 150 POUNDS

Average American To Use That Much More Food in 1936 Than 30 Years Ago.

CHICAGO—The average American of 1936 will consume 150 pounds more food this year than his predecessor of 1906, according to a bulletin issued here by the American Research Foundation.

"More sugar, fruits, fats, and oils, and milk products are being eaten by the people of the United States," says the bulletin, "whereas fewer cereals, including corn meal, buckwheat rye flour, and wheat flour, are being consumed than formerly."

"The per capita consumption of sugar is estimated at about 100 pounds this year, compared with 51 pounds per capita in 1906. Fats and oils, including margarine, salad dressings, and other fatty foods will average about 41 pounds per capita this year, compared with 31 pounds a generation ago. Milk products consumption has increased from 849 pounds in 1906 and fresh fruits from 179 to 192 pounds per capita. Meat consumption has shown little variation, ranging from 142 to 145 pounds a year per person. Figuring the increase with the decline, the average per capita food consumption shows a gain of 150 pounds annually in the last 30 years."

An increasing preference for energy and heat producing foods is evident in the modern American diet. Sugar largely supplies energy, while fats are necessary in generating heat and power for the body. The popular idea is that we get most of our fat from fatty foods like margarine, which is a combination of milk and oil with wholesome animal or vegetable fats or both, yet there is fat in a wide variety of other foods we eat. Meat, milk, and cream, and dozens of other items on the daily menu have a high fat content. The exceptional value of fats is that in addition to supplying energy, they aid digestion by enhancing the palatability of foods consumed in the average meal."

## Pineapple Used as One of Most Pleasing Flavors

AT THE pleasant little Chinese dinner there was one outstanding dish, with a delightful but unidentifiable flavor. It took a few moments to distinguish, among the pleasing mixture of celery, green pepper, chicken and almonds, the texture and flavor of pineapple.

This fruit may be used as a vegetable with all sorts of meat and fish, and unlike other foods, it blends well with almost anything, the delicate flavored meats—like chicken, lamb, or veal—or the stronger flavored ham, tongue, beef, either fresh or canned fruit may be used. The fresh fruit will require longer cooking—the canned slices need merely a brief heating. Lamb or pork chops served with a slice of thick hot pineapple between each chop, make a decorative dish. The chops are cooked first, then removed to a hot platter and kept hot. In the meantime the slices of canned pineapple or slices of cooked fresh pineapple are heated in the pan in which the chops were cooked, so that the pineapple takes on a pungent taste. Slices of ham or pork tendons may be baked with slices of pineapple and juice, and develop a delightful flavor. In baking a large ham, add pineapple juice instead of hot water, and serve with slices of hot pineapple.

As an accompaniment to hot tongue, or hot corned beef, this sauce may be used:

Pineapple Pungent Sauce  
2 cups stock  
1 cup pineapple juice  
4 tablespoons butter  
4 tablespoons flour

Dash of lemon juice.  
Melt butter, blend with flour and the stock in which the tongue or corned beef was cooked. Add pineapple juice and a dash of lemon juice. Also some salt and pepper if the stock is not adequately seasoned.

If desired, grated pineapple may be used instead of pineapple juice.

### COOKING FOR JIGGS

The fame of that famous dish corned beef and cabbage makes it more than usually important that it be expertly prepared. To insure the tenderness of the beef, add a spoonful of vinegar to the water in which the corned beef is cooked.

## Use of Radio Waves for Family Cooking Seen as Possible Future Development

WASHINGTON—New investigations into possibilities of the short-wave, high-power vacuum tube give hope of producing radio waves which will do the family cooking, provide wireless illumination for homes, reduce pain and cure disease, according to Dr. Willis R. Whitney, director of the General Electric Research Laboratories.

Simplified mechanisms and a reduction in the cost of producing large volumes of radio energy are problems now facing solution. With these problems disposed of, control of the new power immediately will open up lines of advance in industry and therapeutics hitherto closed to science, Dr. Whitney stated.

In experimenting with the tube, it was found that by placing a wire over a table at a distance of a few feet from a radiating aerial, which was a copper bar about 30 feet long, a sausage in a glass container suspended from the bar was soon cooked thoroughly. The tube from which this power was produced was two feet long and five inches in diameter.

Different applications of this

tube have been under investigation. For generations heat has been known to be useful in alleviating pain and curing some diseases. Recently medical research has indicated that fever temperatures in the human body are destructive to certain disease germs. The new vacuum tube produces this heat, causing blood temperatures to rise to 100 degrees Fahrenheit in 15 minutes.

Dr. Whitney stated that as yet the high-power short-wave tubes are being used for experimental purposes only and the task now before the inven-

### BUSY PEELER

Mrs. Samantha Burns Sets Record Preparing Potatoes.

By United Press  
ADEL, Ia.—Not until Mrs. Samantha Burns died did anyone make an estimate of her work. Then, it was discovered that she had peeled 32 carloads of potatoes. Mrs. Burns lived at the Dakota county home for 35 years. When she came here she was put to working peeling potatoes. Realizing that the work must always be done she continued it, preparing a bushel and a half of potatoes daily.

## Thrift Dinner for Six Persons Requires Only 15-Minute Cooking

HERE is a thrift dinner for six persons—an ideal dinner for the evening you plan to go out. It can be partially prepared in the morning, the actual cooking time being only 15 minutes! Your biscuits for the shortcake bake while the corn on the cob boils—no one but you will guess it costs only \$2.

Jellied Consomme ..... 25c  
Salmon and Pea Shortcake ..... 40c  
Potato Chips ..... 15c  
Corn on cob ..... 15c  
Grapefruit and Cherry Salad ..... 15c  
Coffee ..... 15c

Salmon and Pea Shortcake: Melt three tablespoons of butter, add four tablespoons of flour and stir smooth. Add 1½ cups of milk, slowly then the liquor from the

gators is to bring them into practical usefulness at a reasonable cost and discover their possibilities for service to the world.

### TRY THIS WITH TARTS AS DESSERT

Lemon Tarts For Dessert  
Sliced Roast Beef  
Cabbage Au Gratin  
Biscuits  
Grape Jam  
Tomato Relish Salad  
Lemon Tarts  
Coffee

Cabbage Au Gratin (With Cheese)  
3 tablespoons ¼ teaspoon butter paprika  
4 tablespoons ¼ cup finely flour  
2 cups milk 3 cups cooked ½ teaspoon salt cabbage  
Melt butter and add flour. Blend and add milk and cook until creamy sauce form. Add seasonings and cheese, stir until cheese has melted. Add cabbage. Pour into buttered baking dish and bake 20 minutes in moderate oven.

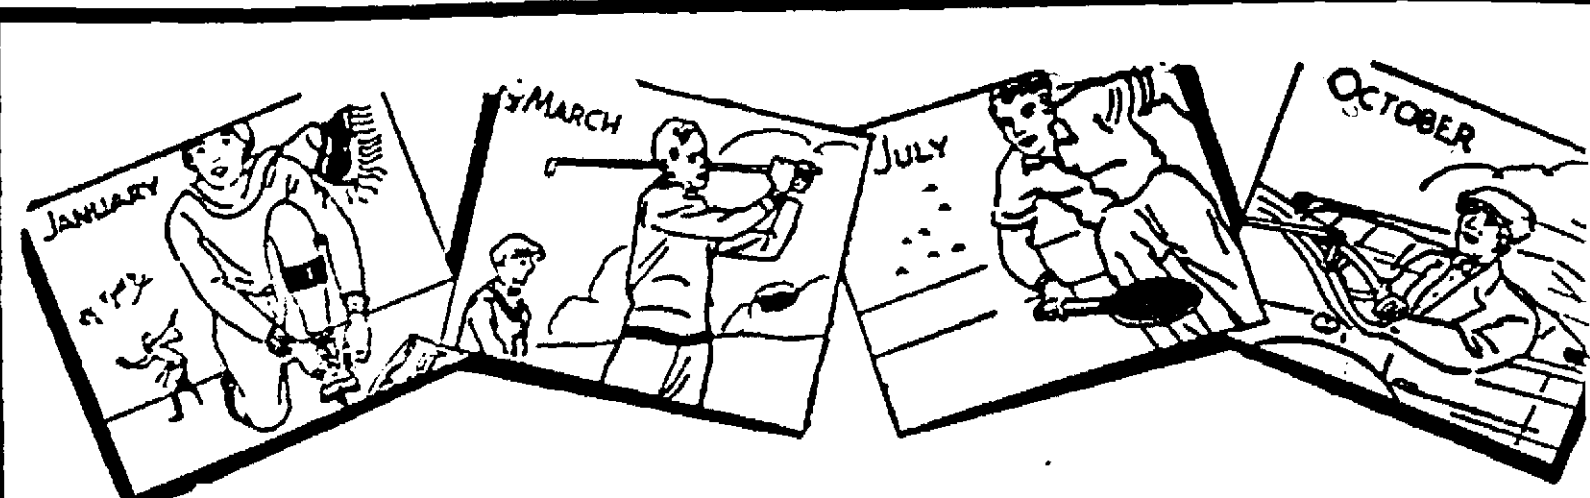

Grape Jam  
8 cups grapes 1 teaspoon cloves  
4 cups sugar ½ teaspoon nutmeg  
1 teaspoon cinnamon 2 tablespoons lemon juice

Wash grapes and remove them from stems. Cover with water, cook slowly for 15 minutes. Remove and save skins and press pulp through coarse colander to remove seeds. Mix skins, pulp and rest of ingredients and cook slowly until thick. Stir frequently with wooden spoon. Pour into sterilized jars and seal.

Tomato Relish Salad  
6 sliced ¼ cup catsup  
tomatoes 2 tablespoons ¼ cup chopped horseradish  
onions ¼ teaspoon salt  
¼ cup chopped green peppers  
Chill ingredients. Arrange portions on crisp lettuce, top with thick French dressing.

Lemon Tart Filling  
3 egg yolks 1 tablespoon 1 cup sugar 1 cup lemon juice  
5 tablespoons rind flour 1 teaspoon butter  
¾ cup lemon 3 egg whites  
juice 4 tablespoons 1½ cups water confectioner's  
¼ teaspoon salt sugar  
¼ cup diced marshmallows

Beat egg yolks and add sugar and flour. Blend well and add lemon juice, water, salt and rind. Cook until thick in double boiler. Add butter. Pour into small pie shells which have been baked in muffin pans. Beat egg whites and add sugar. Mix well. Add marshmallows. Roughly pile on filled tarts. Bake 10 minutes in slow oven.

## Accuracy and Dependability

### HINT TO HOSTESSES

It is doubtful if anyone has ever discovered whose embarrassment is the greatest, the guest's or the hostess's when a cup and saucer become obnoxious at an afternoon tea. Balancing a tea cup and saucer, managing a cake or a sandwich and chatting affably and nonchalantly requires consummate poise and grace. The hostess who would aid her guests in achieving well-mannered distinction will pour a few drops of hot water into each saucer before pouring tea. This will insulate the guests from the inevitable nervous jump caused by the cup from stilllux about on the saucer.

**TURNING SWEET TO SOUR**  
If a recipe calls for sour milk and none is available, add two tablespoons of vinegar to one cup of sweet milk. Let stand for three minutes and the milk will sour.

## LEFT-OVER MEATS HANDILY PREPARED

### Methods Outlined for Making Second Appearance Appetizing.

If fish or meat must make a second appearance at the family table they will be most attractive if served in another dress. Scallop or clam shells, when filled with creamed fish and browned in the oven may be more tempting than the whole fish.

As for the left-over meats, they can be filled in timbale cases and served either as luncheon or supper dishes, depending on the contents. Timbale cases have a very professional look, but they are not any more difficult to make than doughnuts. It requires a timbale iron, very hot (same temperature as for doughnuts, which is about 380 F.), and quick action.

#### Timbale Cases

2 eggs  
1 cup water  
1 cup flour  
1 tablespoonful sugar  
1/4 teaspoonful salt  
1/2 tablespoonful melted shortening (not butter)

Beat the eggs with the water and shortening, then add flour, sugar and salt, which have been sifted together. Let stand a few hours in a cool place.

When ready place the timbale iron in a Scotch bowl or other deep saucepan and add shortening liberally—sufficient to cover the iron well, then heat. When it reaches 380 F. remove the iron, let drain, then dip into the batter, but do not completely cover, as the mixture will expand during frying. Replace in hot shortening and fry until light brown. Remove and place on soft paper to drain.

### Man's Life Savings Stolen by Pickpocket

By International News Service  
PITTSBURGH, Pa. — Camillo Varsite, of Sturgeon, Pa., was a sick man. He was enroute to a Michigan sanitarium to be cured, traveling by bus and carrying his life savings of \$130.

While waiting in the bus station here a young woman jostled him around. A few minutes later he discovered that the incident was not accidental—for his money and ticket were missing.

Sympathetic passengers immediately passed the hat and raised \$50 for Varsite, enabling him to purchase a new ticket and continue on his journey.

### Laboratory Set Up To Study Meteorites

By International News Service  
COLORADO SPRINGS, Colo. — Reading the life story of meteorites is the rather unusual occupation of Prof. H. H. Nininger of McPherson college, Kansas. Prof. Nininger has established a laboratory at Palmer Lake near here, for the purpose of cutting meteorites and analyzing their composition.

The Palmer Lake laboratory is said to be one of two such laboratories of its kind in the world.

People blurt out "ham and eggs" when asked what they'll have, because they know they can get that.

Girls who are beautiful are not satisfied when they grow old to be called "distinguished looking."

### FICTION

"Twenty-four Hours," by Louis Bromfield.  
"Years of Grace," by Margaret Ayer Barnes.  
"Angel Pavement," by J. B. Priestley.  
"The Edwardians," by V. Sackville-West.  
"Seed," by Charles G. Norris.  
"Picaresque," by David Hamilton.

### NONFICTION

"The Story of San Michele," by Axel Munthe.  
"Al Capone," by Fred D. Pauley.  
"Lone Cowboy," by Will James.

many years. In "Monique" Yvonne Dufour presents American society rather than that of New York and Long Island as seen by a French girl who married a young American millionaire.

Monique, only daughter of the de Bussac, a family whose chateau and nobility date from the middle ages, expected to live on at the chateau and walk in the exquisite gardens until she died an old spinster. For she and her mother were all that were left of the family, her brother Andre, an aviator, having been killed in the war.

Fate took a hand in the story and Kent Halston, an American motorist, was inconvenienced by a flat tire and while waiting for help saw Monique, who was caught by her loneliness and in the course of two weeks married her. Monique's setting then was a Park avenue apartment. The novel is something new in the way of a society idea, having grace in design and in character.

The novel is published by Dutton's and is the publishers' prize book for the month.

### Book on Autography To Be Published Soon

LADY CHERWOOD, the wife of the Lincoln biographer, has written a book about her life-long hobby entitled "An Autograph Collection and the Making of It," which Henry Holt and company will publish on Oct. 17.

She started collecting autographs during her childhood and her intimate friend, Sir Edmund Gosse, to whom her book is dedicated, was able to assist her very materially. During her life she has had occasion to meet most of the prominent figures of the day in the field of literature. Hence her book becomes more than a book simply on autographs. It contains many intimate glimpses of the great and the near-great with the added charm of heretofore unpublished anecdotes and pleasant personal relationships.

### Names Most Beautiful Woman Novelist

HARRY SALPETER, self-styled Boswell of New York, has probably interviewed more authors than any other person in America. In a recent novel in "The Bookman" he wrote: "The most beautiful woman novelist I have ever met, or ever can hope to meet, was the young English girl who wrote 'Dusty Answer.' Rosamond Leh-

mann. I can not remember what it was we talked about." Miss Lehmann's new novel, "A Note in Music" has just been published by Henry Holt and company.

### "The Yellow Mistletoe" Is Month's Mystery

THE DUTTON mystery book for October is "The Yellow Mistletoe," by Walter B. Masterman. A timid little person from the country falls dead down the seldom-used winding stairway of the Leicester square tube station in London. No one saw him approach the staircase; nobody else was on the stairs at the time.

The police record it as an accident, but Sir Arthur Sinclair, famous Scotland Yard detective recently retired from the force, has a different idea. He believes there is some connection between the clergyman's death and the apricot mistletoe, with berries strangely yellow instead of white, which he found in a vase in the dead man's study. He discovers also that the parson's beautiful wife, a woman of mystery to his friends, was found dead some years before in the woods near her home, a look of terror and horror frozen on her lovely face, and that his daughter, the counterpart of her mother in beauty, has for years felt an intangible menace hanging over her. Piecing the facts together reveals the mystery.

### Shakespeare's Plays For Little Theaters

C. B. PARDON, author of "Producing Plays," and able English Little Theater producer, has written the introduction and the notes on production for a player's edition of Shakespeare. "The Swan Shakespeare," a three-volume edition with 25 double-page and 63 single-page drawings of costumes and scenes by Jean Campbell, Mr. Pardon has put this work together especially for those who would produce the plays in little theaters. Publication by Dutton's Oct. 21.

### Novel Tells Story of Pioneer Days

"INDIANS AND PIONEERS," by Grant Foreman, tells all sorts of fascinating things about the early days in the southwest before the removal act of 1830 and when there were clashes as well as friendships between the natives and white pioneers.

### New Books in Fiction

AMONG the new books of fiction are listed "Quiet Street," by Michael O'Sorgin, "Memoirs of an Infantry Officer," by Siegfried Sassoon, "The Mistletoe," by Francis Stummiller, "Down the Red Lane," by Henri Nadel, "Forest of the Hanged," by Liviu Rebreanu, "River Man," by Leonard Lupton, "David Golder," by Irene Nemirovsky, "Wind from the Sea," by Ruth Blodgett, "Elfin," by S. Fowler Wright, "Joyous Betrayal," by Charles Felton, "To What Green Altar," by W. B. Yeats, "Havann Bound," by Cecil Roberts and "The Wings of Adventure," by Philip Gibbs.

Dignity is not to be made fun of. Everybody ought to have some.

# Learn the secret of PERFECT LEAVENING for your baking

For ideal results in baking you need a baking powder which applies two-thirds of its leavening power during the mixing and the remaining third in the oven.

Fifty-two scientific tests in the process of manufacture make absolutely certain that Rumford Baking Powder gives you the advantage of this perfect leavening proportion in every baking. That's one important reason why Rumford is preferred by cooking experts and authorities on food.

Another vitally important reason for the choice of Rumford is the fact that Rumford adds real food value to cakes and hot breads. For Rumford contains in substantial quantities the food Calcium and Phosphate so necessary to the proper growth and development of bones, nerves and teeth.

Learn more about the value of this remarkable all-phosphate baking powder.

## St. Mary's Parochial School Has Only Student Cafeteria in City

In the upper photograph are a few of 150 students enjoying a noonday lunch at the St. Mary's school cafeteria. Below are students with trays, waiting in line to be served.

### Restaurant Operated by Parent-Teacher Association for Pupils.

WINTER noons will hold no horror for students at the St. Mary's parochial school this year. For a nominal price they can lunch in the school cafeteria operated in the basement of the school building by members of the Parent-Teachers' association. The cafeteria, started last year, is the only one of its kind in the city.

An average of 150 students lunch in this cafeteria at noon during winter months. The restaurant is operated on a non-profit basis and offers the stu-

dents wholesome food at a small cost.

The idea of a school cafeteria was conceived by Rev. W. J. Spickerman. His plan was to lessen the hazard of students being struck by automobiles at the noon hour going to and from their homes, and to make it possible for students living on the outskirts of the city to have hot lunch instead of a cold packed one.

The cafeteria was established through efforts of the Parent-Teachers' association, which raised \$700 for equipment. An abandoned storeroom in the basement of the school was transformed into a kitchen.

## Change Tint of Powder as Summer Days Wane

BY JOSEPHINE HUDDLESTON

YOU'LL forgive me if I seem to keep harping on ideas about make-up, but if I suggest them too far in advance of your need you'll forget the details by the time you are ready for them.

What I have in mind at the moment is that, from now on, you'll have to add a little flesh or rose colored powder to the shade you've been using the summer. If your face powder is to be kept in key with your complexion as it starts to bleach out.

Those of you who plan a series of bleaching treatments, thereby gaining a skin several shades lighter in a very short time, can make more sudden changes in the shade of your powder than those who, not having tanned a great deal during the summer, intend to just let their skin fade out naturally with time and lack of exposure.

Blondes will add the flesh shade of powder to the one they have been using and brunettes will add a little rose color to their powder.

Do this adding of powder sparingly and test it carefully before you use it. Mix the powder well so that you get a perfect blending of shades. An aluminum shaker makes an ideal powder mixer. Just put two tablespoonfuls of your summer powder into the shaker and then add a half teaspoonful of the lighter shade. Put on the cover and shaker for a few minutes. This not only insures perfect blending but it keeps the powder in a loose, light state instead of packing it tightly as happens when blending is done with a spoon or an orange-wood stick.

### A General Rule

Of course, you'll have to test out the powder, but if you follow the general rule of flesh for blondes and rose for brunettes you won't go far wrong, even with your first trial.

From all beauty centers we find that lavender powder is becoming more popular for evening wear. There isn't any question but what it clears the skin, and for those early fall occasions before bleaching has been completed it makes one's beauty life more simple. BUT, beware of cheek rouge on the orange tinges when you use lavender powder!

You'll have to substitute the red rouges for the orange ones when you use the lavender powder or you'll look ghastly. But, then this change in color in rouge isn't a serious matter because you'll use the lavender powder only at night.

Also the orange lipsticks will make your teeth appear yellow instead of white, so you'll have to guard against that, too.

Don't worry about the general effect of your complexion when making these changes, however, for the result will be the same under the artificial lights as your usual make-up in daylight.

In changing from orange rouges to red to be used when lavender powder is favored for evening, blondes should select the lighter, paler shades and brunettes the more vivid ones. This will keep your color values true for your complexion with the increased whiteness and clearness of the skin gained from the use of lavender powder.

And although very few women use the extremely dark shades of rouge at any time, they simply are hideous with the lavender powder. Those of you who have found this very dark, rather purplish shade, suited to your complexion, and there are a few, should substitute a very dark red, one that has the pure red tone. Also, you may find

the use of lavender powder unflattering even when you've applied a clear, red rouge. But this isn't always true. You can quickly tell if you test out the idea yourself. Then, too, the complexion that appears best with the rather purplish rouge frequently doesn't need rouge on the cheeks at all when the lavender powder is used, though, of course, you will want to touch up the lips. A very dark, deep red will be best.

## CHARGES U. S. HAS TOO MANY CHURCHES

Pastor Says Country Might Profit If It Followed Example of Russia.

By International News Service. PITTSBURGH, Pa.—The United States should recognize the Soviet government of Russia and it might be a good thing for this country if many of its churches were closed as in Russia.

These two unexpected statements were made by the Rev. John Ray Ewers, pastor of the East End Christian church here, after returning from a trip to Russia recently. Dr. Ewers made the tour in company with a group of United States Senators and business men.

"Yes, many of the churches in Russia are closed," Dr. Ewers continued. "Some are being used as granaries, some as restaurants and some as stores. The people of each community vote as to whether they wish to have the churches remain open."

"I wonder if there are not too many churches in Pittsburgh and other cities of the United States and whether the city would not be better off if a good many of them either consolidated or closed altogether."

"Moscow used to have 1,600 churches—altogether too many. I attended six on a Saturday evening; some were well attended, others not."

"Business men of the United States should try to understand the Russian experiment. We should recognize the Soviet government and get a share of the trade. It would not be necessary to interfere their economic policies in order to recognize their government."

Dr. Ewers declared that Moscow was a fascinating old city. "The Soviet revolution of the Russians is regarded with warlike psychology. They are willing to wear bark shoes and live on carrots to put their five-year program over."

"This is the day of the worker in Russia. He has the best homes; the best seats in the theater and the best food. In the Opera house at Leningrad I saw men without shirts on, eating apples and sitting in the best seats."

"It is an interesting experiment and one worth watching intently."

### Succeeds in Publishing Interesting Guide Book

By International News Service. NEW YORK—Making a guide book interesting is more difficult than dramatizing a telephone directory but Eleanor Eganly has accomplished it in "And This Is Boston." The charm of old and new Boston is revealed in readable and witty fashion. The authoress is a former Boston newspaper woman.

When you are old and when you are old, you can wear shoes that are comfortable.

Too many people want their minister to be brilliant; when his best service is to be helpful.

# Home Economics in County Schools Now Complete Course

## All Phases of Home Life Included in Class Work

Schools Offer Four-Year Courses; Numerous Institutions in County Conduct Cafeterias in Connection with Studies; High Standard Maintained.

Home economics in Marion county schools is past the stage of infancy. It is now a well-established course, and is being taught in a manner that is comparable to other sciences in the school.

The plan for junior high school food study is to teach the foundation of food preparation, to develop correct food habits, to assist in the preparation and serving of meals and to make careful selection of food when sent to market. The course also carries instructions in good manners and courtesy.

In the eighth and tenth grades the study of foods and nutrition is based on the planning, preparation and serving of meals and the health of the family. The managerial aspects of meal planning are so stressed that the aid of fitting girls to go from the school into their homes ably prepared to manage the meals of the family may be realized.

No course in clothing will be approved by the state department which consists of construction alone. The courses throughout must consist of textile study, design, cost, wardrobe planning, selection, hygiene of clothing, care and repair of clothing, and construction.

Home Ideas Useful Housing the family, the location and architecture of the home, financing the home, remodeling houses, principles of design in home decoration, home furnishings, yards and gardens, are among the important phases of the courses in the county schools.

Child care and training is especially stressed in the school work. There are, however, numerous opportunities throughout the home economics course for stressing the care and training of children.

Attention to the food needs and habits of children is stressed in the foods course, clothing for children in courses in clothing, etc. In addition to a study of food and clothing, factors influencing children's conduct, habit formation, and growth and development are taught.

The state department recommends that home economics work be started in the seventh and eighth grades, giving two 90-minute periods in each grade each week, to be supplemented by full time instruction in the ninth grade, according to Supt. Rayburn.

This virtually finishes the home economics work in the ninth grade.

Girls who otherwise do not have the opportunity of learning these things about home life and home building are given an opportunity to do so in the home economics course," Supt. Rayburn said. "Often, a helpful influence is carried into the home by the student, who compares with other sciences.

The high school standards for home economics in Marion county schools are: Food study and nutrition, such as to make it a study

is in many cases able to offer suggestions to mothers."

The course is a popular one among school girls. It is not compulsory, but is an elective course.

## RAREBIT VARIETIES RATHER NUMEROUS

"Spanish Woodcock," "English Monkey," "Blushing Bunny" in List.

Rather extensive is the Welsh rarebit family. "Spanish Woodcock," "English Monkey," "Blushing Bunny" to mention only a few, as a variation of the same good old recipe—cooked cheese, highly flavored.

Whatever it's called, the chief qualities of good rarebit are a perfect, creamy smoothness and spicy flavor. It's not food for babes or weak digestions. But when a robust appetite craves something stimulating and slightly nourishing, but not too substantial, then a Welsh rarebit fills the bill beautifully.

Plain Welsh Rarebit  
1/2 pound American Cheese  
2 tablespoons butter  
1 egg  
1/2 cup top milk or thin cream.  
1 teaspoon salt.  
1/2 teaspoon mustard  
1/2 teaspoon Worcestershire sauce  
1/2 teaspoon soda.

Cut the cheese fine. Meantime melt butter in top of a double boiler, then add cheese and stir. When melted add the well-beaten egg and other ingredients continuing to stir until thick. Then pour on crisp toast and serve immediately. Plates should be kept hot while the rarebit is cooking and as soon as finished should be served. Cooked cheese cannot be kept standing—when lukewarm it is unpalatable and when cold a tough and villainous dish.

All sorts of variations in favoring are used. In the old days no rarebit was considered genuine unless it contained one cupful of ale or beer. But it imparted to the rarebit a rather bitter flavor, which was a cultivated taste by some, and never particularly liked by many.

A teaspoon of onion juice is considered a pleasant additional flavor, and those who like a rarebit very pungent add a discreet dash of cayenne.

Spanish Woodcock  
1/2 pound American cheese  
2 tablespoons butter  
1 cup thick tomato sauce  
1 cup cooked chopped mushrooms.  
1 teaspoon salt.  
1/2 teaspoon pepper.

Melt butter, add cheese, and when melted add the other ingredients, stirring constantly.

On an average we each eat fourteen and a half pounds of butter yearly, as compared with nine pounds fourteen ounces in 1913. Our consumption of cheese is seven and a half pounds or two pounds a head more than in 1913.

## Restaurants Need Variety of Bread for Customers

"WHOLE wheat bread with tomato and lettuce inside," ordered the fussy business man, stopping at the counter for a swift sandwich.

"Have to order it that way," he explained as the clerk grinned, "to make sure I get whole wheat—not white bread. It makes a lot of difference."

That is why it pays to keep on hand more than one kind of bread. The breadbox should have a small quantity of each of several varieties, rather than several loaves of the same kind. The flavor of a sandwich can be improved considerably, even with a simple filling, if the right kind of bread is used. For example, the different cheeses really call for different kinds of bread.

Creamy soft cheeses are excellent on fine white bread. But as soon as they become pungent, or if a hard type of cheese is used, the eye or whole wheat bread seems to blend much more pleasantly.

Meat Sandwiches  
Delicate meats like veal, chicken, lamb make excellent sandwiches when white bread is the basis. But the red meats call for coarse grains—rye, whole wheat. Certainly the vegetable sandwiches are more flavorful with a whole wheat or graham bread, especially when seasoned with mayonnaise.

For effect as well as flavor, there are two varieties of fancy sandwiches suitable for luncheon, tea or late supper. There is the sandwich made of more than one kind

## EFFICIENCY REQUIRED FOR MODERN WOMAN

Meals Planned in Advance Aid in Eliminating Element of Drudgery.

How splendid to live an age when woman's time has value! Now that they have taken our places as councilors and companions to the family, they find there is not time for the drudgery of by-gone days.

In line with their efficient labor and time saving methods, Sunday dinner is no longer a dreaded ordeal. Instead of taking up the greater part of the day to prepare, today's well balanced dinner is properly planned in advance. Some dishes are prepared on Saturday as soon as the market order is delivered. Ice box cake, cookies, puddings, biscuits and jellied salads can be prepared Saturday afternoon while dinner preparations are in process. These will all be ready then, for Sunday service.

Cannot salad materials should be put in the refrigerator, in the cans so they will be chilled thoroughly. Fresh salad materials should be cleaned and put in the vitallier compartment or loosely covered container. Even the potatoes can be partially prepared, ready to cream and brown.

Careful planning and wise Saturday marketing give the up-to-date home manager time to attend church services and for recreation. A notebook in the kitchen will help often. It makes it possible for any member of the family returning early to help with dinner preparation. This notebook may contain the menu and a few of the less familiar recipes, together with a list of the utensils and food needed for the preparation of the meal.

## BROWN SUGAR MORE THAN A SWEETENER

Adds Flavor of Its Own to Other Ingredients in Cooking.

Brown sugar is not merely sweetening—it adds a flavor of its own, and gives a pleasant background to other flavors. Apples cooked or baked with brown instead of white sugar are especially good, and if they're the sour greenings, so much the better. In preparing sauces, brown sugar is worth trying. Instead of going to the trouble of trying to caramelize white sugar, add plain brown sugar, which will give just as good a flavor without the effort. Brown sugar may be added to plain cornstarch for caramel pudding, to custard, or junket, providing sweetening and flavoring.

Similarly, in preparing simple hot puddings—bread and dried fruit puddings, such as fig, apricot, prune, cornmeal, brown sugar is more flavorful than white.

Here is a pungent sauce suitable for fowl or meat. It may be served hot with hot meals or cold with meat or vegetable salads if preferred:

### Italian Sauce

2 oranges.  
2 lemons.  
1 cup hot water.  
1 cup brown sugar.  
1 cup raisins.  
1/2 cup chopped walnuts.  
Dash of salt.  
3 tablespoons cornstarch.  
Dissolve the cornstarch in a little cold water. Heat the water, strained juice of oranges and lemons to boiling point, add the sugar and cornstarch and when slightly thickened the raisins and chopped walnuts. Continue cooking a few minutes longer, then remove from the fire.

## FALL ATTIRE

For her new Fall wardrobe, the well-dressed young lady selects a suit of Lila Cloth in the popular blue-black shade. The shawl, collar and cuffs are of brown fox. The costume is complete with an eggshell crepe blouse and matching turban.

## Careful Stove Operation Aids Good Cooking

It is no news that food cooks more quickly when covered, but the question is what foods can be covered and what ones cannot. All foods in which rapid evaporation is necessary such as jellies, jams, candies and icings should not be covered. Any others, however, can be, with success in cooking and a saving in food.

Don't use a large gas burner when a small one will do.

Don't light the burners until the food is all ready to go on the fire.

Don't heat a kettle full of water when you only want two or three cups. Always keep a small kettle handy to heat small quantities of water. It will save money for you.

Cooking by temperature may be accomplished in one of two ways—by an oven thermometer and by the use of a thermometer. The oven regulator assures an even maintenance of temperature. A thermometer requires watching but will indicate the temperature being maintained.

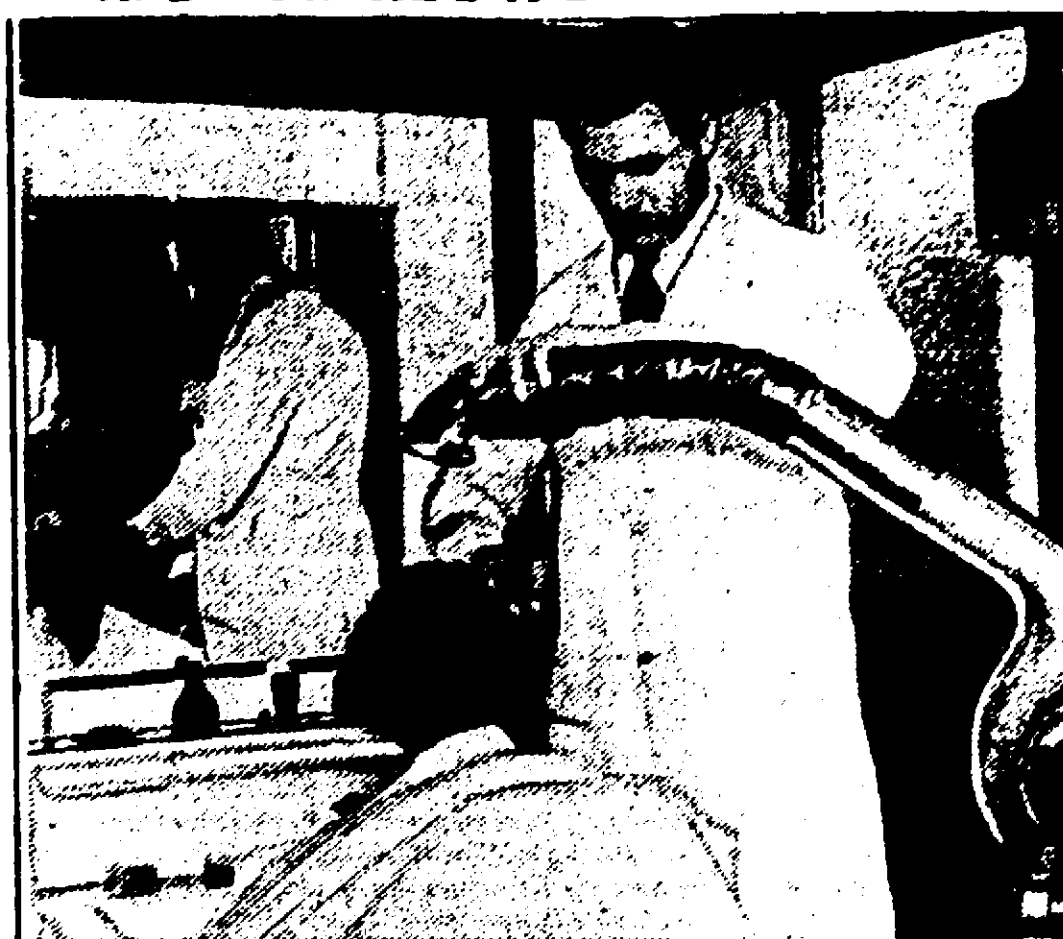

### COCOA "JUST RIGHT"

A smooth and creamy cup of cocoa is a perennially palatable beverage, but when served in a cup in which the cocoa has lumped it is a disappointing experience. If a little sugar is added to the cocoa while it is dry and then a little boiling water or hot milk is poured over this mixture a smooth paste is made. When added to the hot milk it will be found that the cocoa will be readily dissolved.

To give your salad dressing a different and piquant flavor save the vinegar from the pickle jar and use this, which is highly seasoned, instead of plain vinegar.

From June to September is called the silly season because so many serious matters are put off till fall.

## AND NOW HE'S A BEAUTY EXPERT

Some fighters retire and take up Shakespeare, but not Phil Scott, one time pride of the British heavyweight boxing ring. He has become a beauty expert. He is shown in his new establishment in London, where he employs six helpers.

## Popular Foreign Dishes Available in America

MARGE, who took a flying trip to Europe last summer, has come back with a few culinary enthusiasts.

"Brioche in Belgium—Bouillabaisse and Onion Soup in France—Rizzotto in Italy—why can't we have them here?"

Of course, we have, and by diligence one can find places where these dishes are cooked as well as in their native lair. Some of them are easy enough to prepare at home. But Bouillabaisse and Brioche are specialties that can be prepared only for a large number. It's nothing for a small family!

Bouillabaisse is a choice but miscellaneous fish soup. All kinds of delicate fish are used, especially shellfish. And they must be of the very best, because the special charm of this dish is the manner in which each flavor is carefully preserved. Several kinds of fish, including eels, are cooked together. Lobster, oysters, crawfish are included. Indeed, with the splendid and extensive variety of fresh fish

obtainable in this country, we could probably outdo the French chefs in this national dish once we set our minds on it!

Brioche is quite an extensive cooking job. It is merely a small bun, requiring three different ingredients, which makes it almost an all-day job. Too much for the average American housewife! Especially if she can find her way to one of the excellent French shops. But served with chocolate they are delicious—worth a good deal of trouble. And quite as good with afternoon tea.

Onion soup is the easiest of the lot, and since a former French Premier let it be known that it was his favorite breakfast dish, the plebeian pall has been somewhat removed. Slices of onion are cut very thin, then fried in butter until light brown. Very slowly, over a low flame. Add clear bouillon, either chicken or beef. When ready to serve, place a slice of toast in a hot soup plate, pour the bouillon with onions over it, then sprinkle

with one tablespoon of grated mean cheese per person. A be kept very hot—soup, plates. This dish cools quite is not quite so good when warm.

## Salad Recipe in Club M

THE next time the bridge meets at your home, see following menu and see how of your guests ask you for salad recipe:

Ginger Fruit Salad  
Hot Rolls  
Chocolate Chip Ice Cream  
Coffee  
For Ginger Fruit Salad: eight red apples and dice without peeling. Sprinkle with the juice of one to prevent discoloration. A sliced bananas, the sections oranges, one cupful of seedless white grapes, one-half of chopped nuts, one chopped, candied ginger. S watercress with Lime Dressing which is made by lime juice and powdered French dressing, according taste. Serves eight.

## BRENLIN SHADES

*The Harner Edwards Co*

## BRENLIN SHADES

## Thoughts Are Turned Toward The Home

Again...

## MEATS ALWAYS FRESH

from FLACH'S

Chosen For Use in

## The MARION STAR COOKING SCHOOL

## QUALITY! VARIETY! VALUE!

These are conditions which make Flach Meats the standard of comparison in this community. And Quality, Variety, Value do not "just happen." They are the result of continual watchfulness in buying—and selling. We select only the best the market offers, therefore you buy only the best—here.

### Yes, We Deliver

Because South Main Street is torn up is no reason that we cannot give you our usual service. Just phone your order and we'll do the rest.

### The Meats In The School

Even the best of cooks cannot make savory dishes from inferior meats. Follow the school instructions closely and then come to us for ANY cut of meat you wish to use in your home.

### Prices Low, Quality Considered

At first thought our prices may seem higher; but, when you consider the additional nutrition in a piece of meat cut from stock which is in prime condition when killed, the best is always the cheapest.
